

## Data Submission Guide changes for FY 2016

4/13/2015: **Client File – Records to Include**

Each monthly Client file should include a record for each client for whom services were provided during that month. Only those clients with one or more services during that month should be reported.

4/13/2015: **Client File: Field 6 – Client Status Code**

DMHMRS Modifier 1 code of “072” (Mental Health Prevention) has been added to the list of allowable values when Client Status Code value equals “3”.

4/13/2015: **Client File: Fields 25 through 39 – Diagnosis Fields**

The width for each of the 15 diagnosis fields will expand from six to eight characters to accommodate ICD-10 codes. Per federal regulations, ICD-10 codes should be used for all claim transactions beginning with October 1, 2015. The new field widths will be implemented in the Client file beginning with July 2015 data. Centers may populate these fields with either ICD-9 or ICD-10 codes during the entire 2015 Fiscal Year. Beginning with July 2016 (Fiscal Year 2017), only ICD-10 codes will be accepted.

Don't forget that the increased width for the diagnosis fields will also affect the “Field Start” positions and “Field End” positions for all the fields that follow the diagnosis fields in the data file.

4/13/2015: **Client File: Field 40 – Serious Mental Illness**

Field has been renamed from “Severe Mental Illness” to “Serious Mental Illness”.

4/13/2015: **Client File: Field 41 – Severe Emotional Disability**

Description for code “2” (for IMPACT clients) was modified.

4/13/2015: **Client File: Field 47: Client 2 Description**

The Client 2 Description field was reactivated in Fiscal Year 2015. Some of the old codes were dropped and some of the descriptions on the remaining codes were updated. For Fiscal Year 2015, errors/omissions in the field generated Possible Errors. Beginning with Fiscal Year 2016, errors/omissions will generate General Errors with a 5% allowable for incorrect/incomplete values.

4/13/2015: **Event File: Field: NTE02 (FA0-12) – DMHMRS Modifier 1**

DMHMRS Modifier 1 code of 072 (Mental Health Prevention) has been added to the list of allowable values when Client Status Code value equals 3.

4/25/2016: **Event File: Field: NTE02 (FA0-12) – DMHMRS Modifier 1**

DMHMRS Modifier 1 code 900 (Physical Health Services) was added in April 2016. It can be used for services dated as early as July 1, 2015.

4/25/2016: **Event File: Field: NTE02 (EA0-41) – Special Program Indicator**

A new code for Physical Health (HIPAA Code 900) was added in April 2016. It can be used for services dated as early as July 1, 2015.

4/13/2015: **Event File: Field: SBR09 (DA0-05) – Source of Pay 1**

Clarification has been added to explain how to code the Source of Pay value of “DBHDID (Y)”.

4/13/2015: **Event File: GS Header**

Example for GS header was updated to comply with Version 5010 of the HIPAA 837 format.

4/13/2015: **Event File: HI Segment – Diagnosis fields**

Formatting changes to accommodate ICD-10 codes. For services provided during Fiscal Year 2016, both ICD-9 and ICD-10 codes will be accepted. All services with dates of July 1, 2016 or greater should use ICD-10 diagnoses.
