

## My Strong Family Bingo

### How to Play:

You must circulate through the room and ask people to sign your bingo sheet on the one that applies to them. If more than one applies to the same person, you must go to a different person to get the next signature. Then you may go back to the first person again. For example, person A signed a box on your bingo card, so now you must go to person B and get a signature, then you can go back to person A again.

My family used humor during difficult times.	My dad sat at the end of the table for dinner.	My family found creative ways to earn extra income.	My family was involved in a community organization.	My family had some “quirky” traditions.
Holidays were always a great time of the year.	My family displayed my art and/or school work.	I know I am the favorite child.	My family knew how to protect me.	If something happened, the whole family knew about it!
My family was serious about some yard sales!	My family had lots of friends.	We talked about feelings A LOT!	If my family needed help, we weren’t afraid to ask for it.	My parent made me mind manners.
My family regularly attended church.	I was an adventurous child.	My family shared warm hugs.	My parent read books to me frequently.	I asked for help whenever I needed it.
Everyone in my family has a nickname.	If I did something wrong, my parent knew about it before I got home.	My family volunteered in our community.	My parent was the coupon-king/queen of our neighborhood!	We had family rules and/or family meetings.
