

Who is Eligible?

Individuals with intellectual disabilities or other developmental disabilities who meet the level of care for an Intermediate Care Facility for Individuals with Intellectual Disabilities (ICF-IID) and who meet other Medicaid requirements.

How can I find out more about SCL²?

SCL providers include Community Mental Health centers and public and private agencies across the state. These providers are certified by the Department for Behavioral Health, Developmental and Intellectual Disabilities. A complete listing can be found on the Online Provider Directory at:
<http://dbhdid.ky.gov/ProviderDirectory/>.

Participant Directed Services

The Participant Directed Services Option gives SCL² Participants more choices in the way some of their services are provided. For more information contact the Department for Aging and Independent Living at 877-293-7447.

What do I do to receive SCL² supports and services?

If you are already receiving SCL services, your case manager will help you transition to SCL² services during your birth month. If you are not currently receiving SCL services, the first step is to complete an application form for SCL services (MAP-620). You may obtain an application by calling a Community Mental Health Center or another SCL provider in your area or by printing a copy from the Medicaid website at <http://chfs.ky.gov/dms/forms.htm> or by calling 502-564-7702. There is currently a waiting list for services and supports.

This program is funded with federal and CHFS funds.

Supports for Community Living²

Division of Developmental and
Intellectual Disabilities
SCL Waiver Branch
Cabinet for Health and Family Services

What supports and services are available?

Case Management The person who helps the individual and his/her family to develop a plan to meet the individual's needs is called the case manager.

Community Access Assists the participant to become involved in community activities and build ongoing independent relationships with others in the community.

Community Guide Empowers participants to define and direct their own services by assisting with the PDS process.

Community Transition Limited assistance available to persons transitioning from an institutional or another provider operated living arrangement to help establish their own household.

Consultative, Clinical, and Therapeutic Support Consultation, assessment, treatment plan development and monitoring, technical assistance provided by a variety of certified or licensed professionals.

Day Training Provides training, in a place other than home, focused on such topics as career development, health and wellness, community integration, and supported retirement.

Environmental Accessibility Modifications Alterations made to a participant's home to aid in independence.

Goods and Services Includes equipment, services or supplies which reduce the need for personal care or enhance independence/safety at home or in the community.

Natural Support Training Offers an opportunity for natural community supports to receive specialized training geared to the participant's interests or needs.

Occupational/Physical/Speech Therapy The use of therapeutic tools and techniques to increase and enhance development, improve functional ability, or improve communications. This service is provided by a licensed professional or qualified therapy assistant.

Personal Assistance Allows the completion of tasks the participant would normally do for themselves if able. Occurs in the person's home or in the community as needed.

Person Centered Coach Provides for modeling, monitoring, assessing and implementing the person centered plan.

Positive Behavior Supports and provides for the development of a positive behavior support plan based upon the analysis of data collected during a functional assessment of behavior.

Residential Supports Options include: Level I (provider owned or leased) a group home or residence or Level II (a family home or participant owned or leased). Residential Supports provide

up to twenty-four (24) hour supervision, and training designed to help the participant move toward independent community living.

Respite Rest or relief for those persons normally caring for an individual. This service is available to a participant living in his/her family's home.

Shared Living Non-residential support which enables a participant to live in their own home with a non-related person who may provide overnight supervision, personal care, and other assistance as needed.

Specialized Medical Equipment and Supplies May be covered when unavailable through the Medicaid Durable Medical Equipment, Vision, or Dental Programs.

Supported Employment Assists the participant to identify, acquire, and succeed in an integrated job in the community.

Transportation Limited availability to enable people to gain access to waiver and other community services, activities, resources when not otherwise available from family, natural supports, or as an element of another waiver service.

Vehicle Adaptation This may involve a device, control, or service that increases the individual's independence and physical safety on a vehicle they or their family own.
