

Supports for Community Living Risk Assessment Inventory **Skin Breakdown**

The following risk factors may be indicators of existing or developing problems. These should be considered by the case manager, service provider, and other team members when assessing and planning for risk mitigation. Referrals for further evaluation by clinicians may be needed to diagnose a specific condition or otherwise address consumer risk. ***This inventory is not intended to take the place of a professional diagnosis conducted according to accepted standards of clinical practice.***

√ if Present	Risk Factor
	Inability to Move
	Bed or Chair Confinement
