

KY Services Satisfaction Consumer Survey Report 2025 Statewide

In 2025, the Kentucky Cabinet for Health and Family Services (CHFS), Department for Behavioral Health, Development and Intellectual Disabilities (BHDID) conducted this survey to evaluate satisfaction of services delivered at Kentucky's Community Mental Health Centers (CMHCs).

Introduction

This document was created as a result of collaboration between:

The Kentucky Department for Behavioral Health, Developmental and Intellectual
Disabilities (DBHDID)

and

The Community Mental Health Centers (CMHCs)

Purpose

The purpose of this document is to evaluate the satisfaction of services delivered by the Community Mental Health Centers (CMHCs) from the consumer's perspective. The source of information reported in this document is aggregated results of a survey.

Why This Survey?

The Mental Health Statistics Improvement Program (MHSIP) was developed and validated at a national level in part to promulgate data standards that allow for valid results that better inform policy and decisions. The YSS-F is designed as the primary tool to evaluate and include the youth client caregivers' perspectives of public mental health services they have received.

Appropriate Use of These Survey Results

The results of this survey are intended to express the aggregated data of respondents' perception of care. This booklet represents the perceptions of a sample of CMHC clients who are actively receiving outpatient services during the time of the survey implementation. The results are not intended to be interpreted as the opinion of all Community Mental Health Center (CMHC) clients on services received.

This report includes results about the survey’s seven core domains:

Domain	Primary Concerns Related to the Domain	Domain Questions
General Satisfaction	Services were, overall, satisfactory and preferable to other choices	1, 2, 3
Access to Services	Staff availability, the range of service options, and how quickly and conveniently services were received	4, 5, 6, 7, 8, 9
Cultural Sensitivity	Cultural and linguistic access and whether services promoted recovery and continuity of care	10, 12, 13, 14, 15, 16, 18, 19, 20
Participation in Treatment Planning	Clients’ participation in planning services. For example, whether the patient, not staff, decided treatment goals	11, 17
Outcomes	Services provided patients with positive changes in areas for which treatment was sought and minimal negative outcomes	21, 22, 23, 24, 25, 26, 27, 28
Social Connectedness	Services contributed to improving natural supports which come from family or friends	29, 30, 31, 32
Functioning	There was a positive effect on independent community living and decreasing distress caused by symptoms	33, 34, 35, 36

State Mental Health Authority

The Kentucky Department for Behavioral Health, Developmental and Intellectual Disabilities (DBHDID) is identified by Kentucky Revised Statute (KRS) 194A.030 as the primary state agency for developing and administering programs for the prevention, detection, and treatment of mental health, developmental, intellectual disabilities, and substance use disorders.

DBHDID Website: <http://dbhdid.ky.gov/>

Regional Community Programs

Kentucky is divided into fourteen geographic regions for the purposes of planning and providing publicly funded community mental health services. For each region a Regional Board for Mental Health or Individuals with an Intellectual Disability has been established pursuant to KRS 210.370-210.480 as the planning authority for community mental health programs in the region.

Methodology

The survey was implemented at outpatient clinics operated by the CMHCs. During each summer, staff make the survey available to people who arrive for outpatient appointments at select clinics. Completing the survey was voluntary and had no implications on appointments or services provided.

Survey analysis was guided by the Uniform Reporting System standards from the Substance Abuse and Mental Health Services Administration. There are three levels of survey analysis:

1. **Overall.** Survey analyses were conducted after removal of blank surveys. Blank surveys were defined as surveys with 100% of survey questions unanswered. Incomplete surveys were defined as surveys with some answered survey questions, but more than 33% of survey questions unanswered.
2. **Domain.** Analyses of individual domains further excluded respondents missing more than 1/3 of a domain's questions. The remaining surveys were then analyzed to compute either
 - i. The average domain score; this analysis computed the mean of all non-missing domain questions per survey (i.e., the survey-level domain score) and then took the average across surveys to get one overall domain score.
 - ii. The percent of surveys with a positive domain score; this analysis counted the number of surveys with a survey-level domain score greater than 3.5 divided by the total number of non-excluded surveys.
3. **Question.** Analyses of single survey questions included all non-missing answers. 'Strongly Agree' and 'Agree' (scores 4 and 5) were considered positive responses.

Survey Penetration Rate

Table 1.
Statewide Survey Penetration Rate In Fiscal Year 2025
(July 1, 2024 - June 30, 2025)

Number of Adults (Age 18 & Above) Served	100,361
Number of Surveys Returned	4,941
Number of Blank Surveys	6
Survey Penetration Rate	5%

During fiscal year 2025, 100,361 adult clients visited CMHC clinics while 4,941 participated in the survey statewide; this resulted in a 5% penetration rate.

Survey Missingness

Table 2.

Adult Survey Missingness

Region Number	Region	Surveys	Incomplete Surveys	Blank Surveys
State	Kentucky	4947	224 (5%)	6 (0%)
01	Four Rivers Behavioral Health	404	24 (6%)	3 (1%)
02	Pennyroyal Regional Center	163	4 (2%)	1 (1%)
03	River Valley Behavioral Health	284	22 (8%)	0 (0%)
04	Lifeskills	92	2 (2%)	0 (0%)
05	Communicare	354	9 (3%)	0 (0%)
06	Seven Counties Services	324	9 (3%)	1 (0%)
07	NorthKey	359	27 (8%)	1 (0%)
08	Comprehend, Inc.	32	1 (3%)	0 (0%)
10	Pathways, Inc.	1379	84 (6%)	0 (0%)
11	Mountain Comprehensive Care	168	2 (1%)	0 (0%)
12	Kentucky River Community Care	65	0 (0%)	0 (0%)
13	Cumberland River	480	5 (1%)	0 (0%)
14	Adanta	287	12 (4%)	0 (0%)
15	New Vista	556	23 (4%)	0 (0%)

Demographic Characteristics

The statewide race and gender of adult respondents in 2025 is presented below.

Table 3.
Gender of Adult Respondents

Male	2058	42%
Female	2566	52%
Missing	323	7%
Total Surveys	4947	100%

The majority of adult respondents were female.

Table 4.
Race/Ethnicity of Adult Respondents

American Indian or Alaska Native	109	2%
Asian	19	0%
Black or African American	309	6%
Native Hawaiian or Other Pacific Islander	10	0%
White	4022	81%
Some Other Race	341	7%
More Than One Race Reported	131	3%
Hispanic	114	2%
Non-Hispanic	4827	98%
Total Responders	4941	NA

The majority of adult respondents were non-hispanic (98%) and 114 of the respondents reported having Hispanic descent.

General Satisfaction

Overview

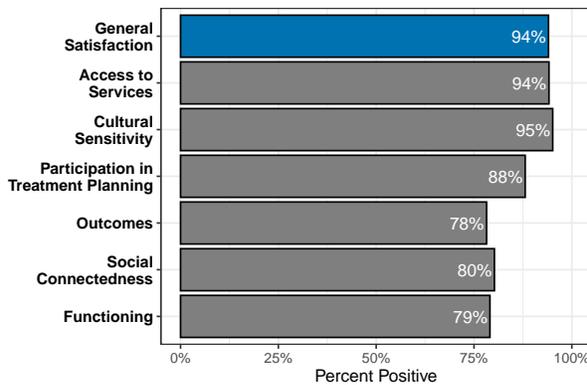

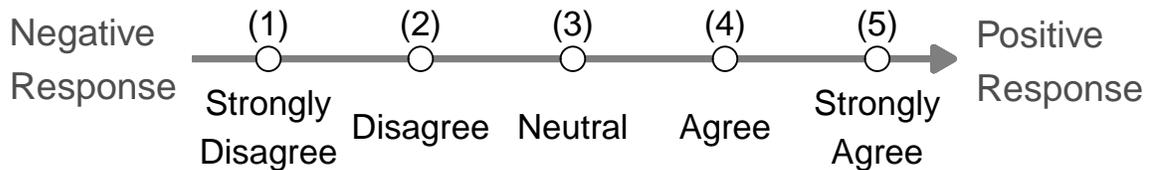

Statewide Totals

The primary concerns of the 'General Satisfaction' domain are:

- Service Satisfaction
- Service Preferences

By national standards a domain score of 3.5 or greater indicates that respondents, on average, positively perceived the services.

MHSIP Survey Scale

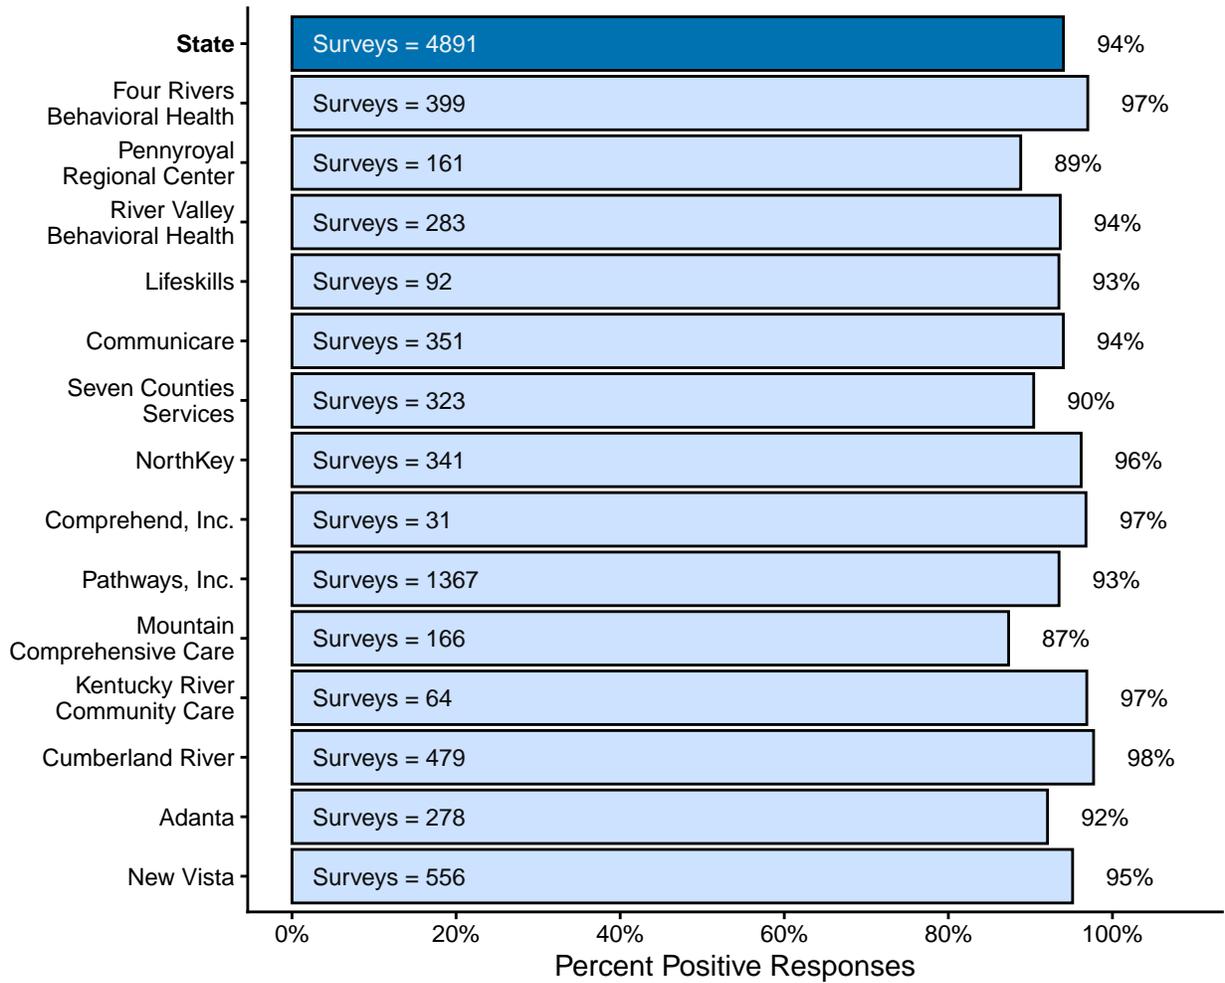

Domain	Score (1 to 5)
General Satisfaction	4.56
Access to Services	4.53
Cultural Sensitivity	4.54
Participation in Treatment Planning	4.51
Outcomes	4.17
Social Connectedness	4.24
Functioning	4.22

In 2025, 94% of respondents had a positive average rating for the General Satisfaction domain. The average rating for all questions within the domain was 4.56 out of 5.

Regional Totals

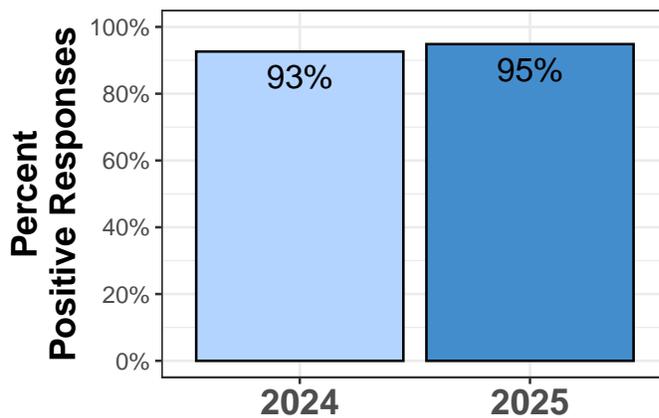

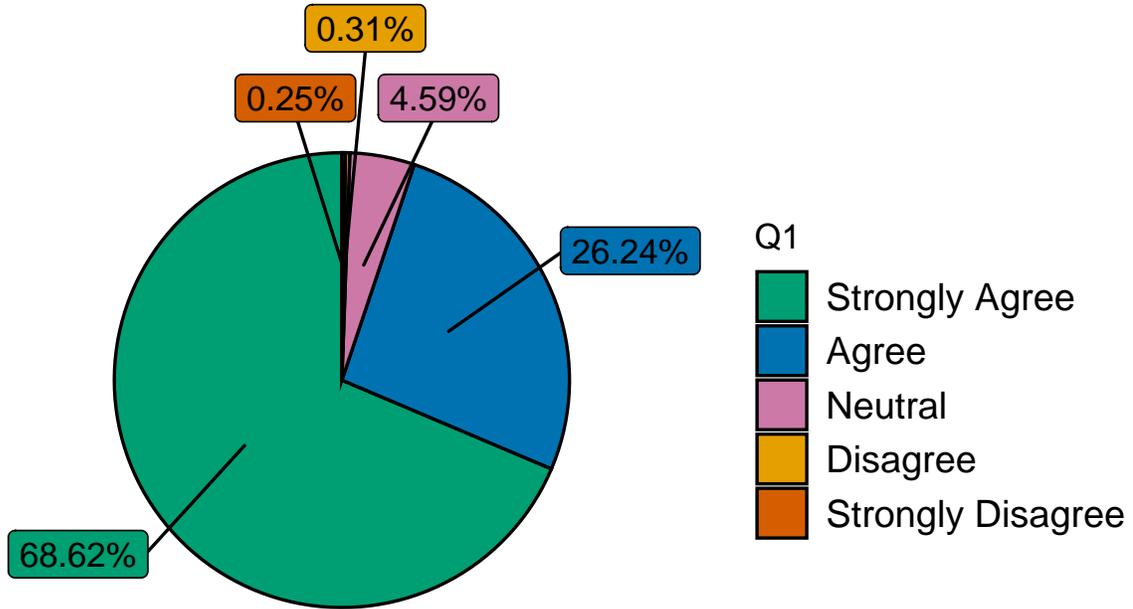

General Satisfaction

General Satisfaction

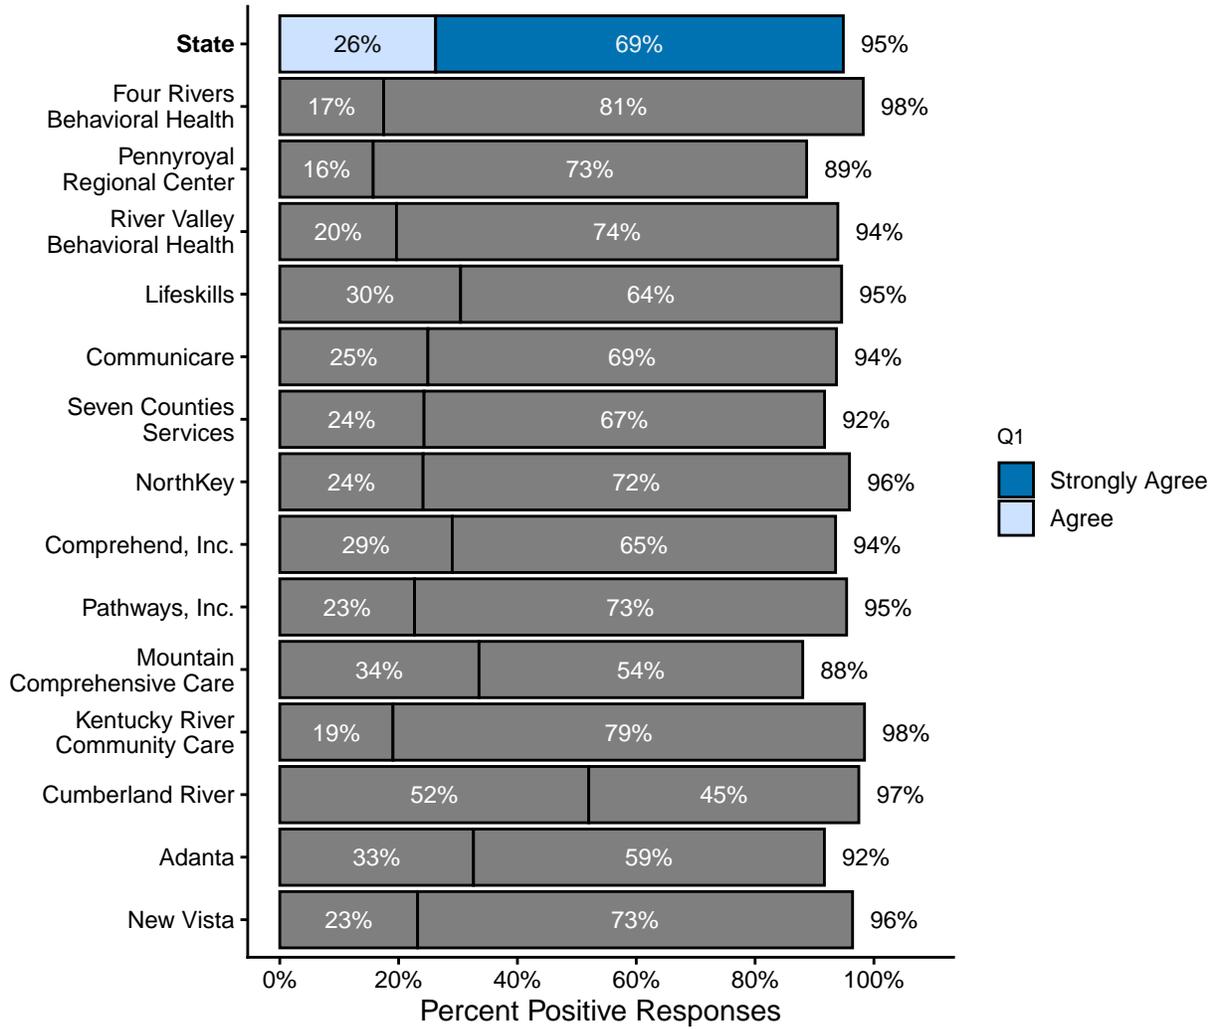

I Liked The Services That I Received Here

Statewide Totals

In 2025, 95% of respondents positively indicated they were satisfied with the services they received from CMHCs; this is a 2 percentage point increase from 2024.

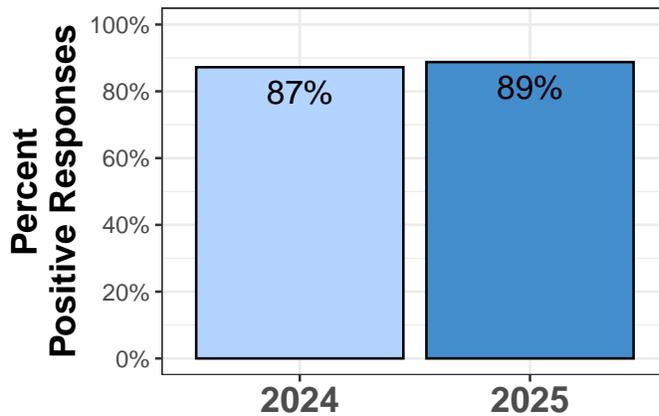

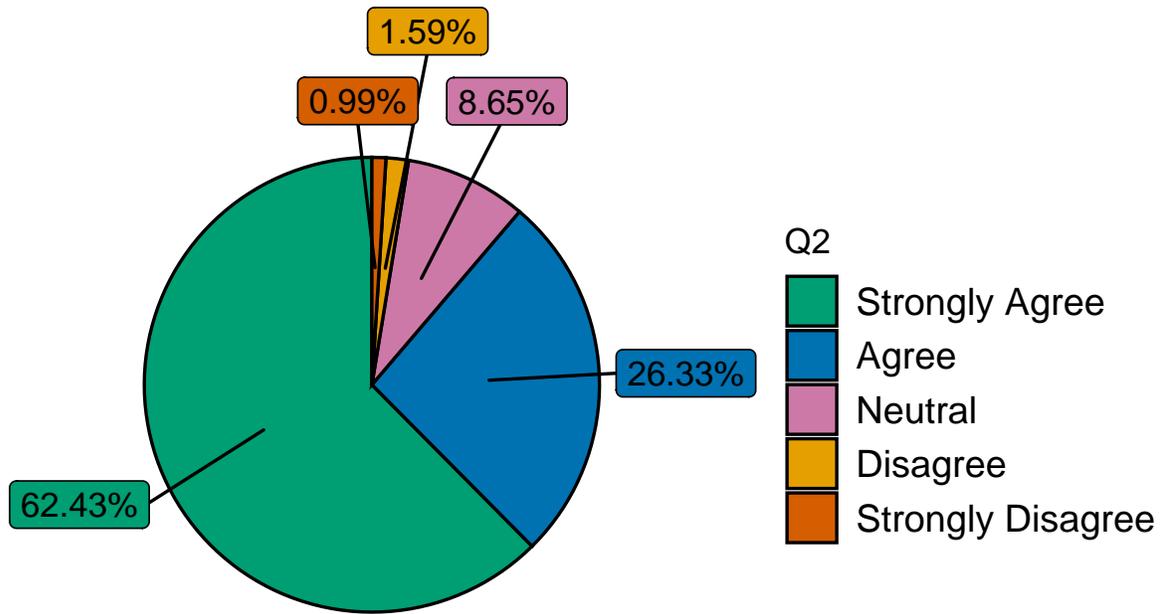

Regional Totals

General Satisfaction

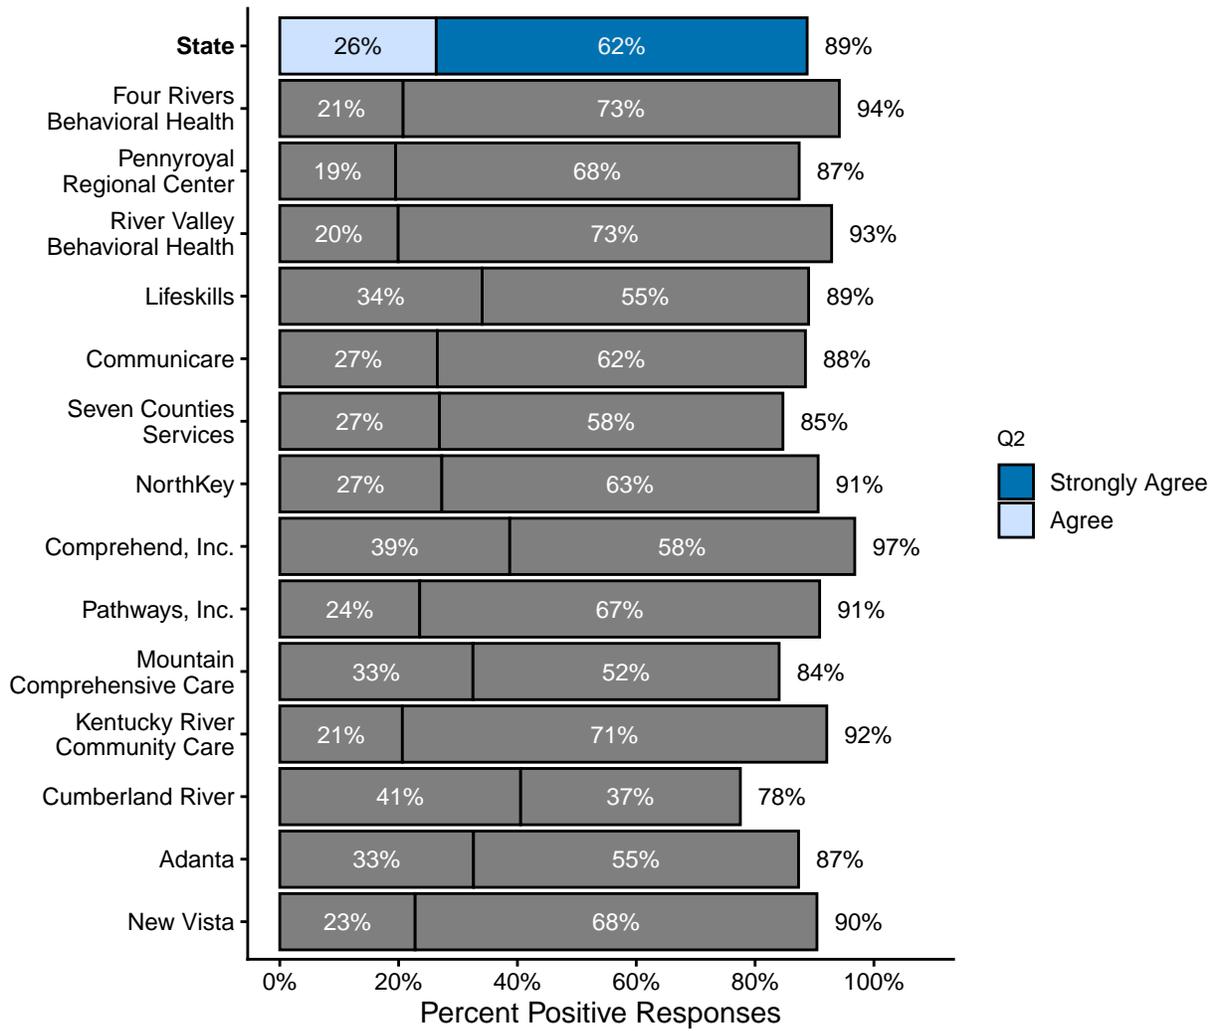

If I Had Other Choices, I Would Still Get Services From This Agency

Statewide Totals

In 2025, 89% of respondents positively indicated they would still get services here if they had other choices; this is a 2 percentage point increase from 2024.

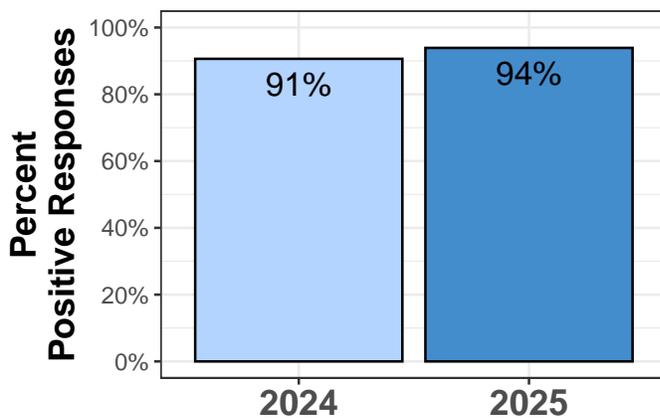

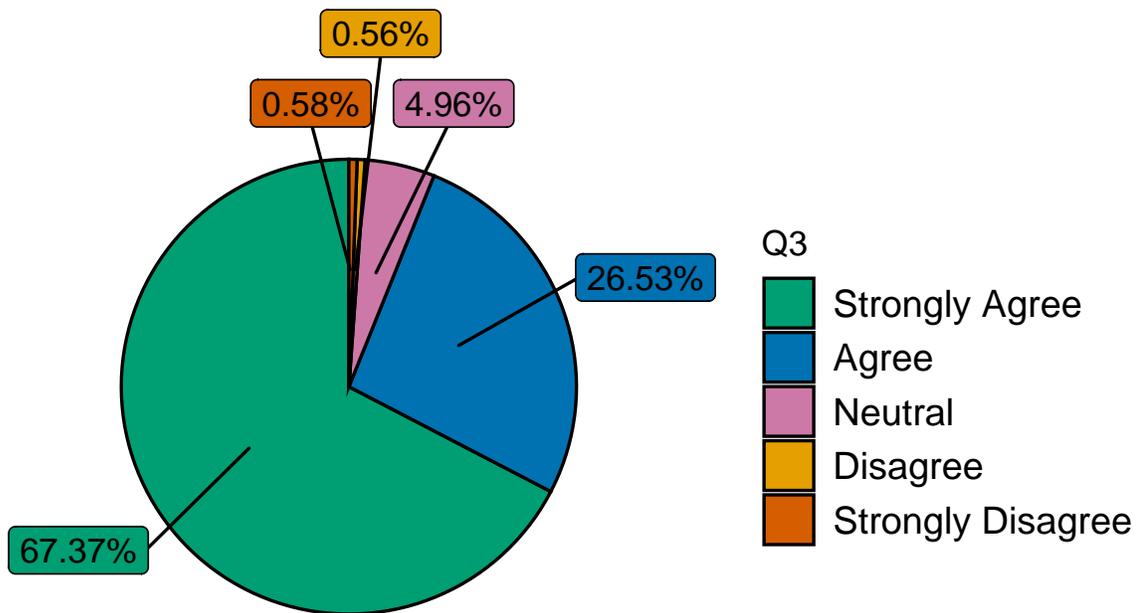

Regional Totals

General Satisfaction

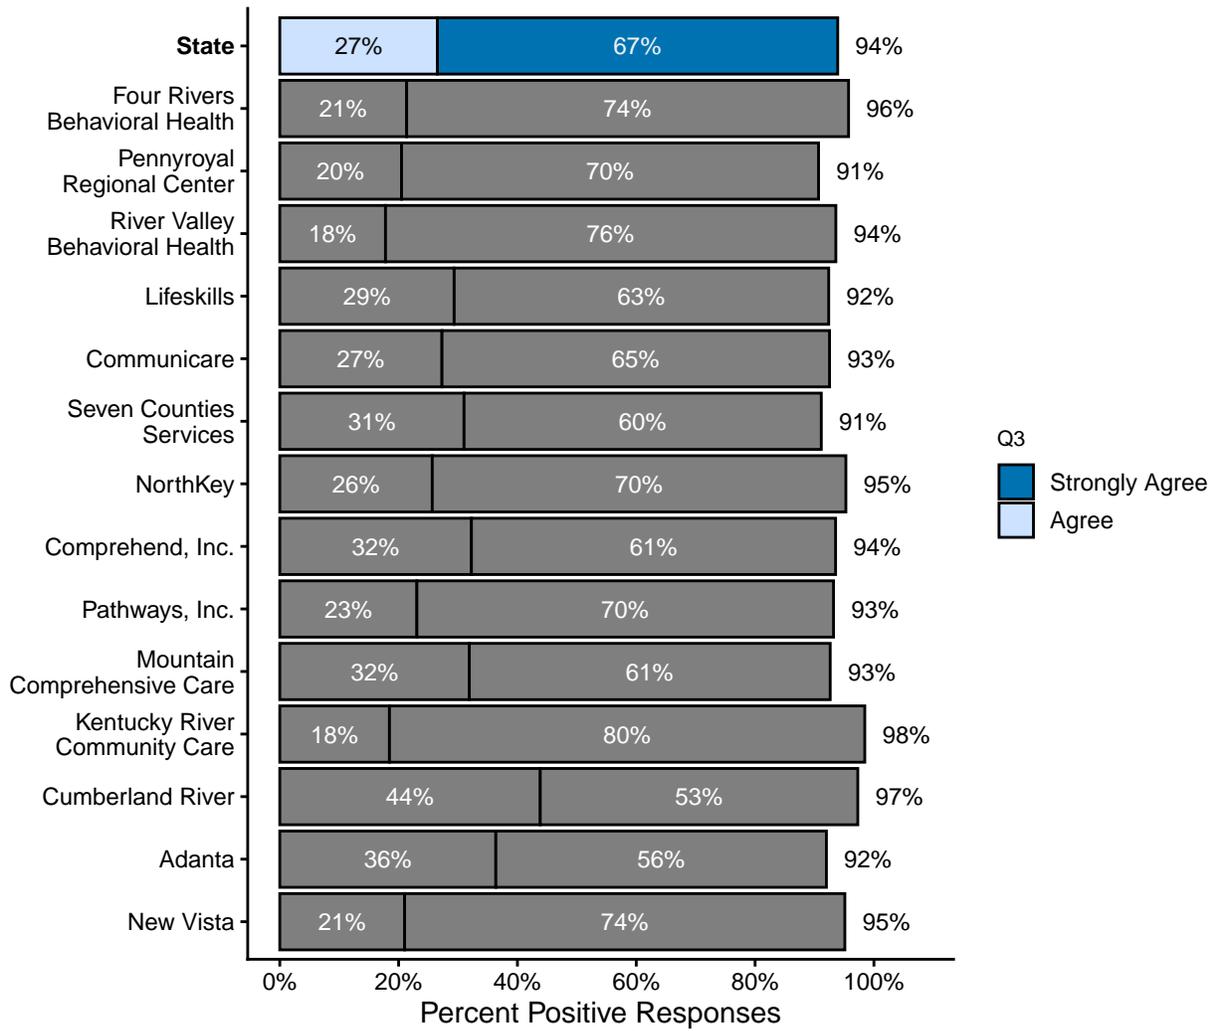

I Would Recommend This Agency To A Friend Or Family Member

Statewide Totals

In 2025, 94% of respondents positively indicated they would recommend this agency to friends or family; this is a 3 percentage point increase from 2024.

Regional Totals

Access To Services

Overview

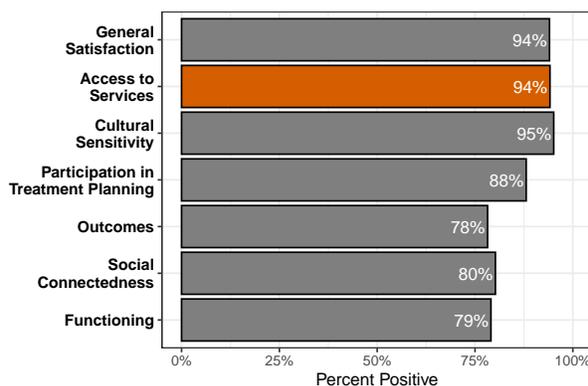

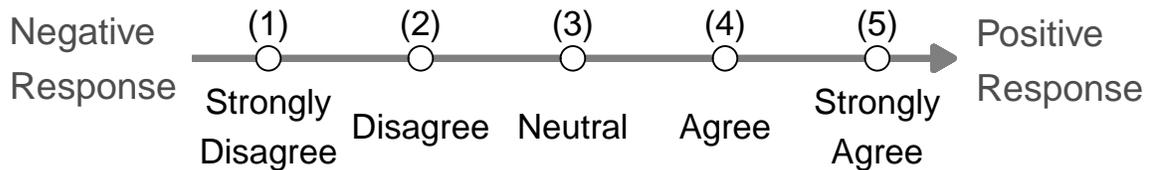

Statewide Totals

The primary concerns of the 'Access To Services' domain are:

- Quick And Convenient Entry Into Services
- A Full Range Of Service Options
- Staff Availability

By national standards a domain score of 3.5 or greater indicates that respondents, on average, positively perceived the services.

MHSIP Survey Scale

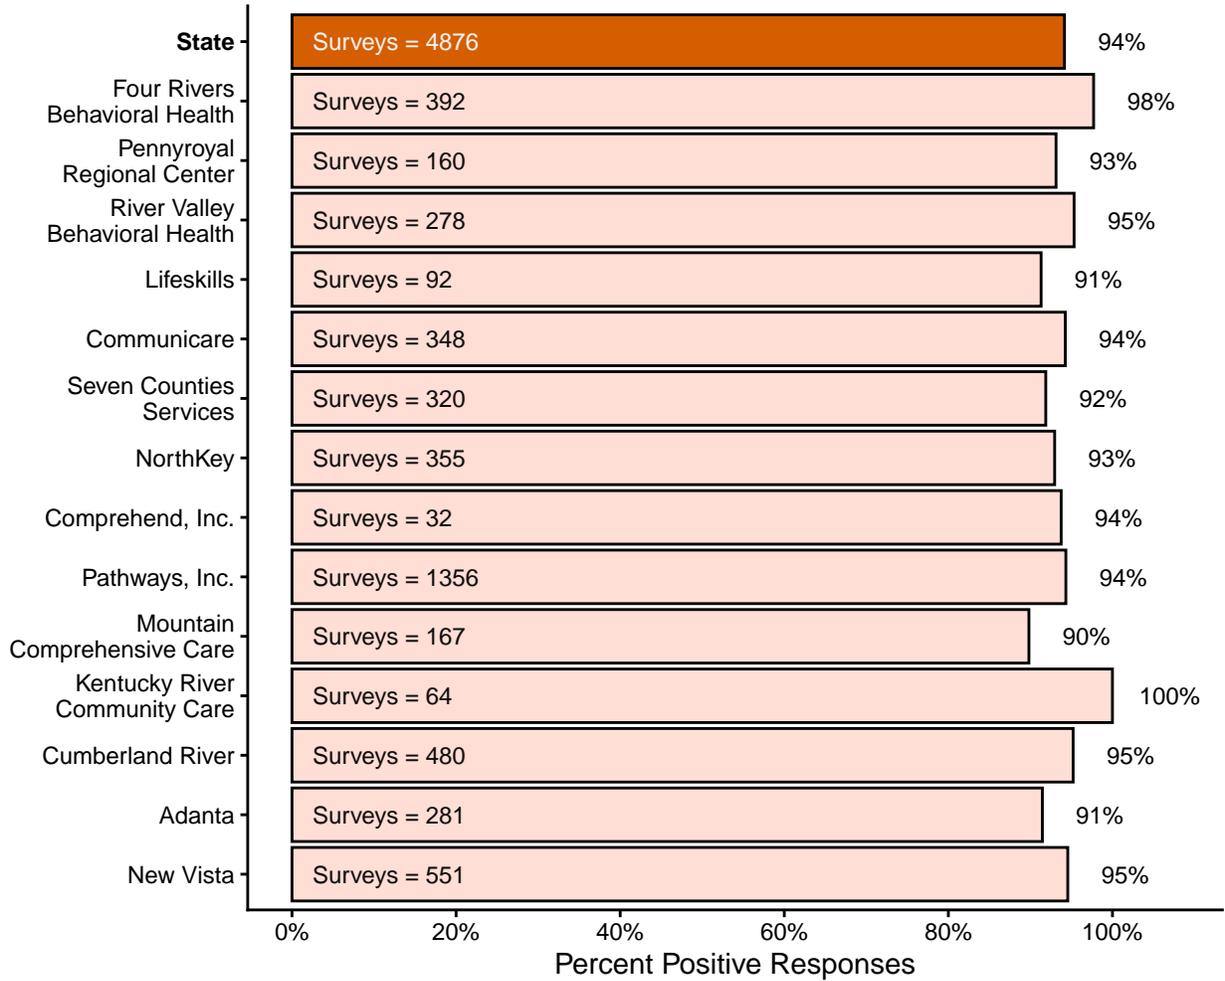

Domain	Score (1 to 5)
General Satisfaction	4.56
Access to Services	4.53
Cultural Sensitivity	4.54
Participation in Treatment Planning	4.51
Outcomes	4.17
Social Connectedness	4.24
Functioning	4.22

In 2025, 94% of respondents had a positive average rating for the Access To Services domain. The average rating for all questions within the domain was 4.53 out of 5.

Regional Totals

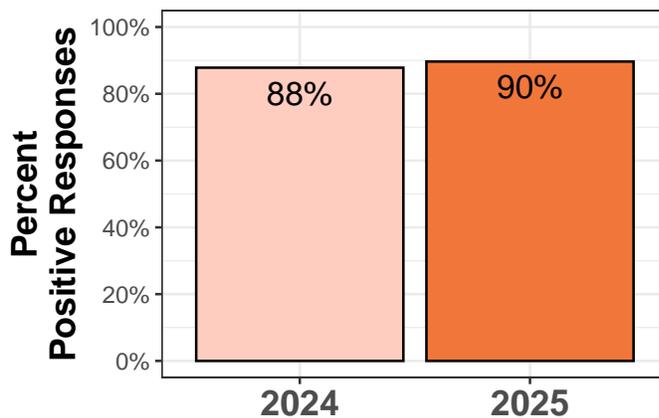

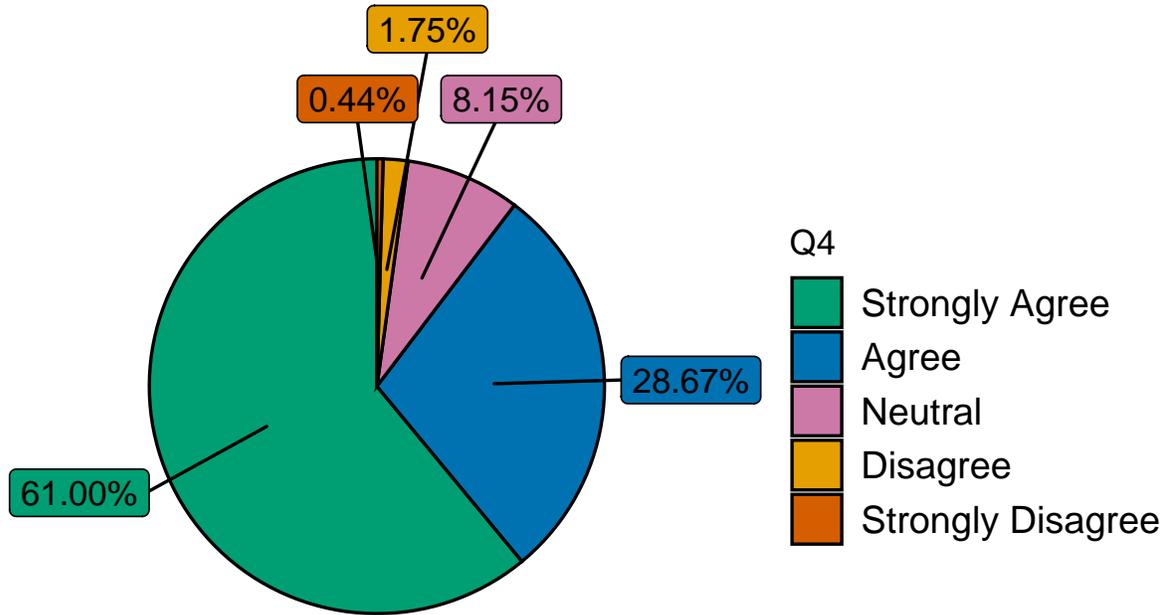

Access to Services

Access To Services

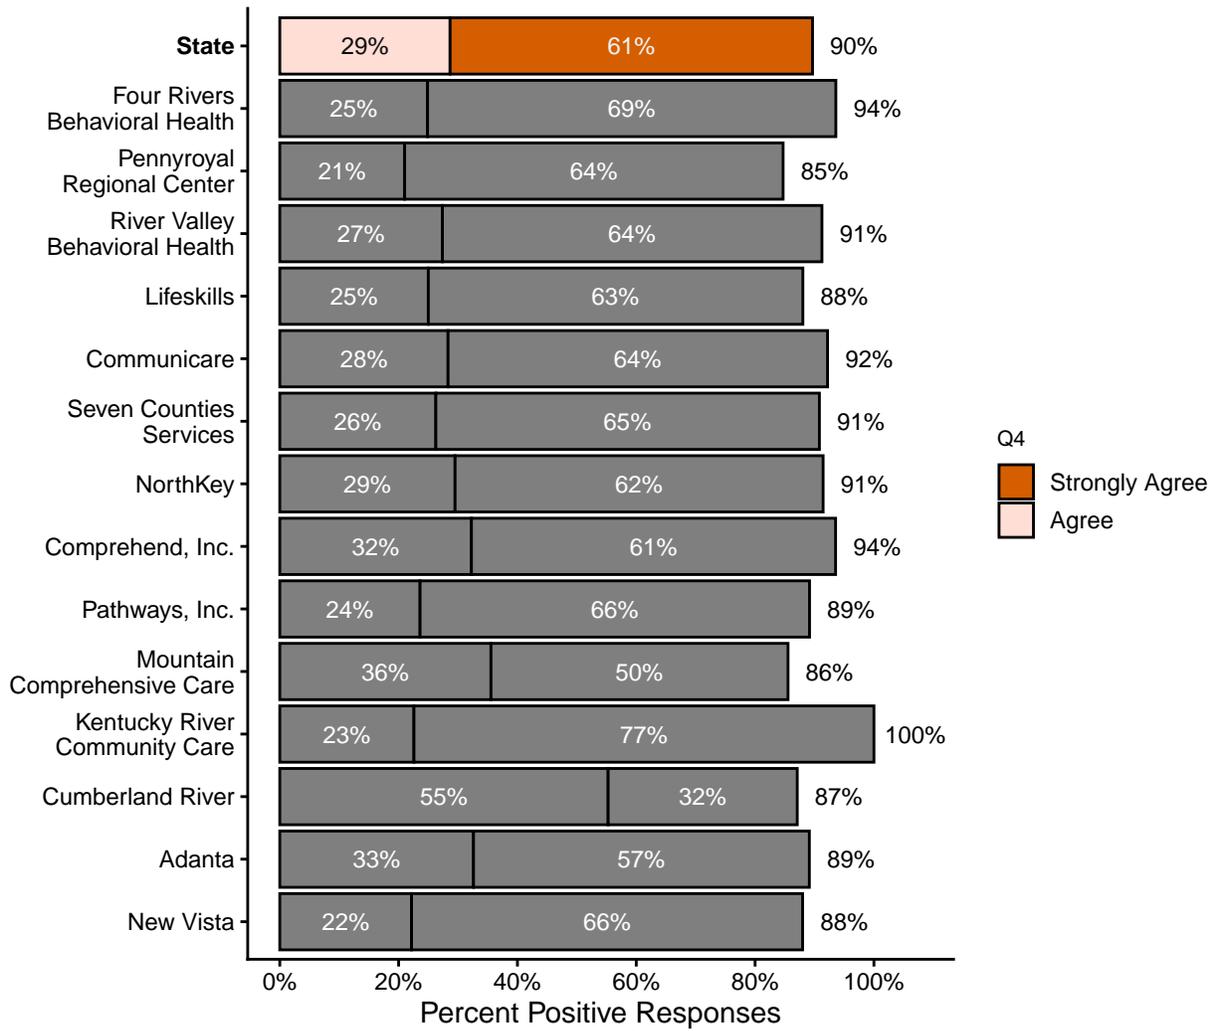

The Location Of Services Was Convenient

Statewide Totals

In 2025, 90% of respondents positively indicated the location of services (parking, public transportation, distance, etc.) was convenient; this is a 2 percentage point increase from 2024.

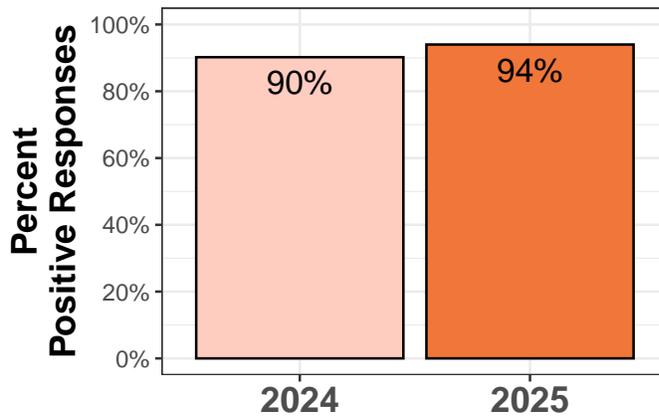

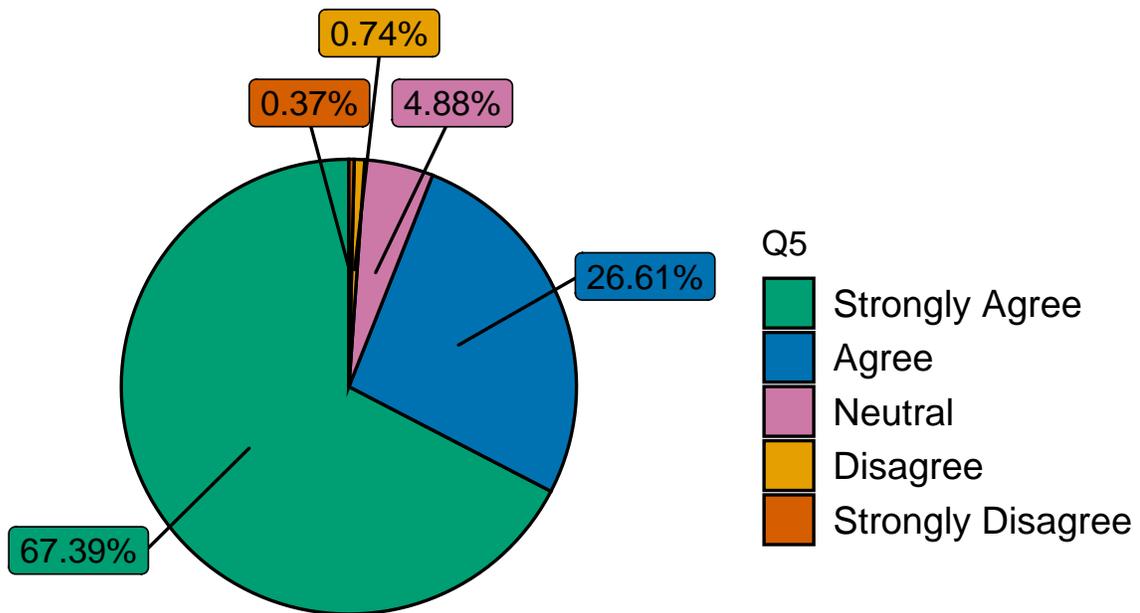

Regional Totals

Access To Services

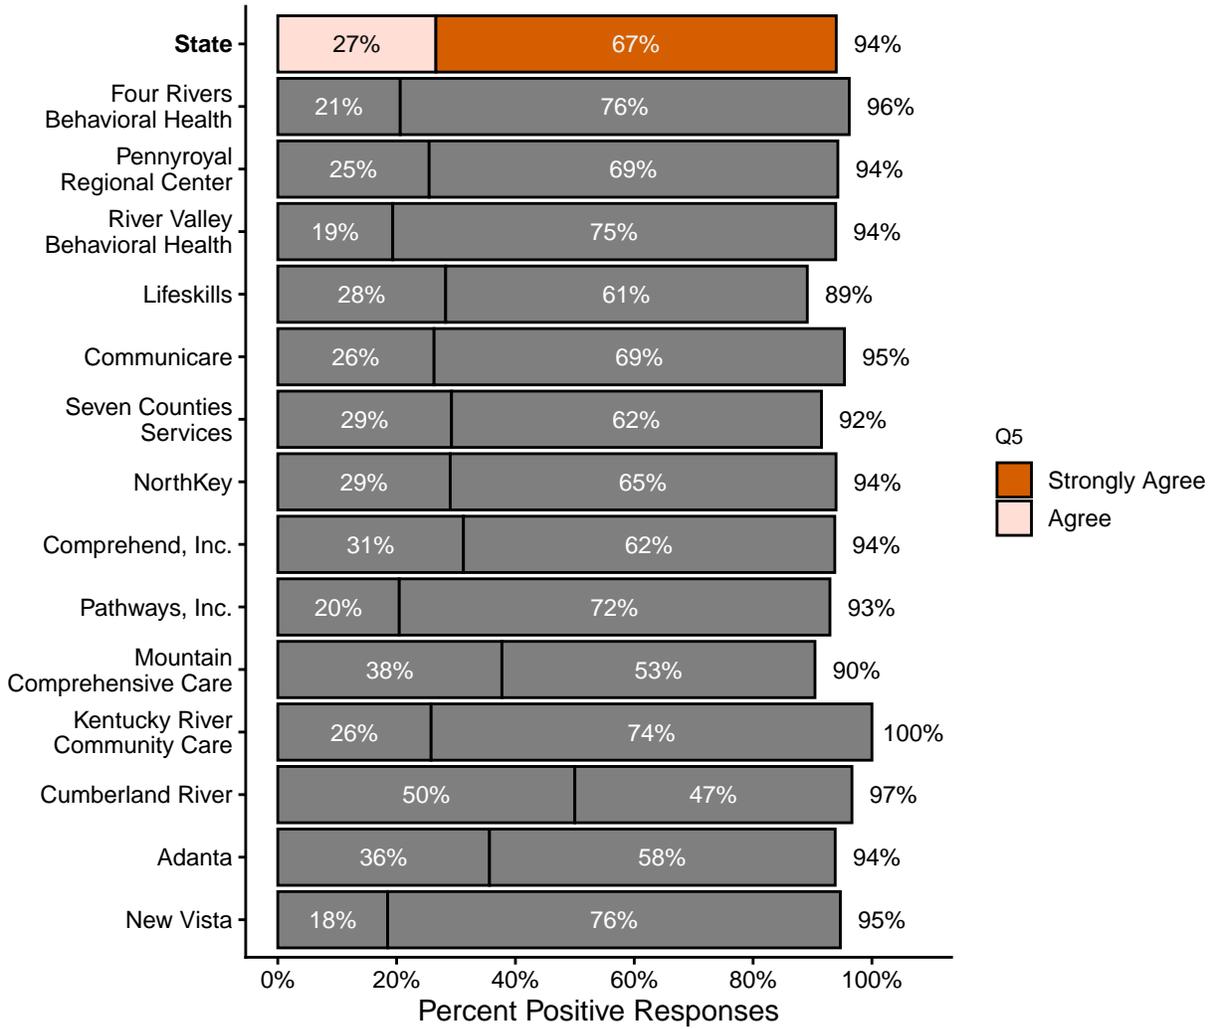

Staff Were Willing To See Me As Often As I Felt Necessary

Statewide Totals

In 2025, 94% of respondents positively indicated staff were willing to see them as often as they felt necessary; this is a 4 percentage point increase from 2024.

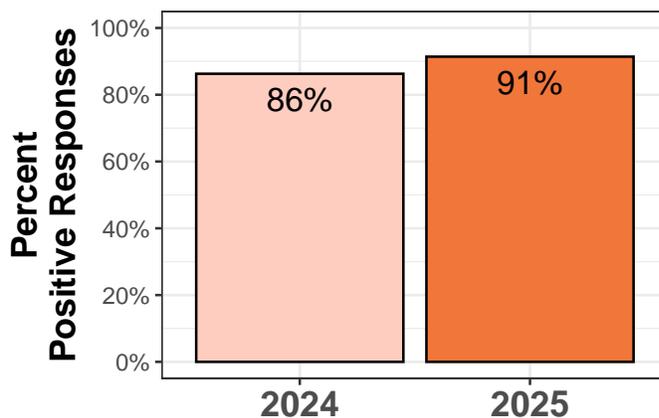

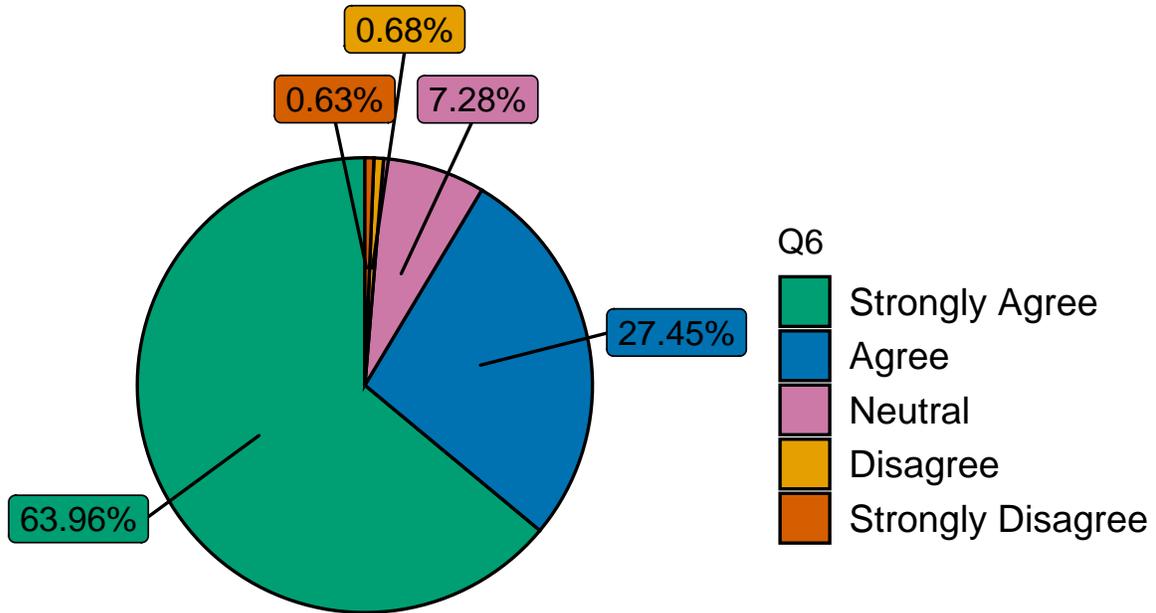

Regional Totals

Access To Services

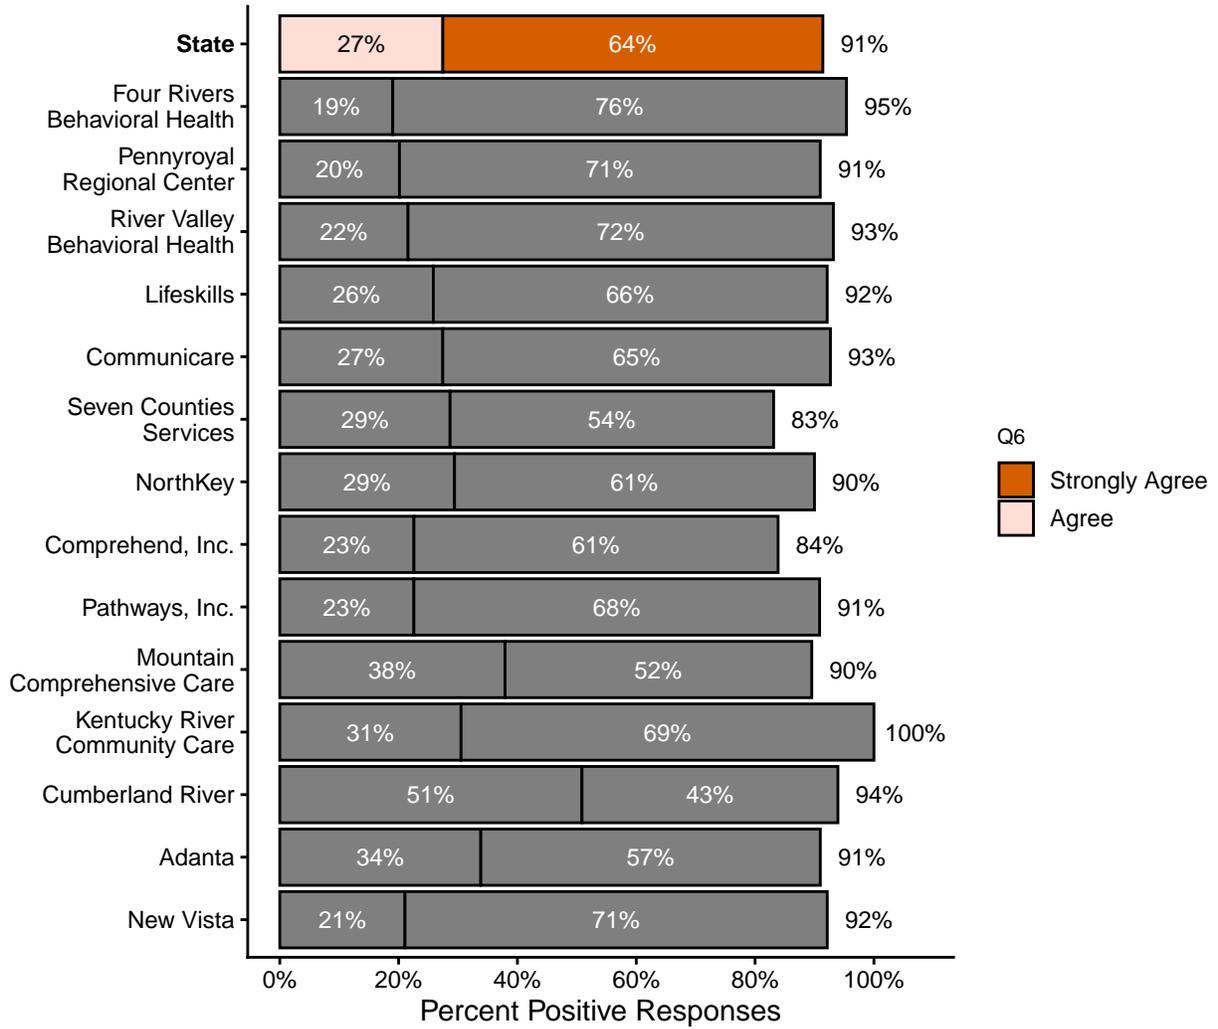

Staff Returned My Calls Within 24 Hours

Statewide Totals

In 2025, 91% of respondents positively indicated staff returned their calls within 24 hours; this is a 5 percentage point increase from 2024.

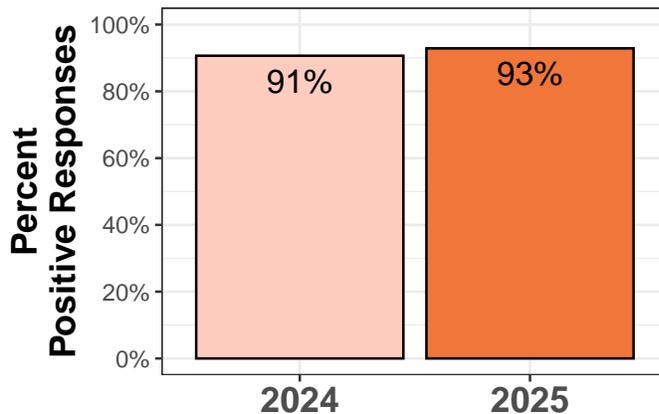

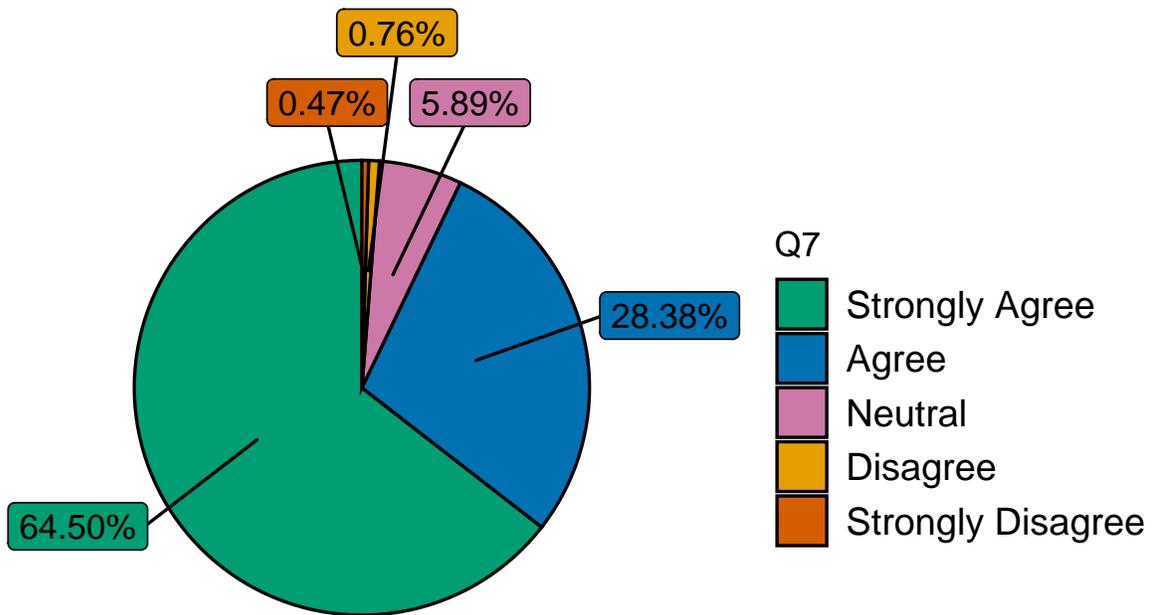

Regional Totals

Access To Services

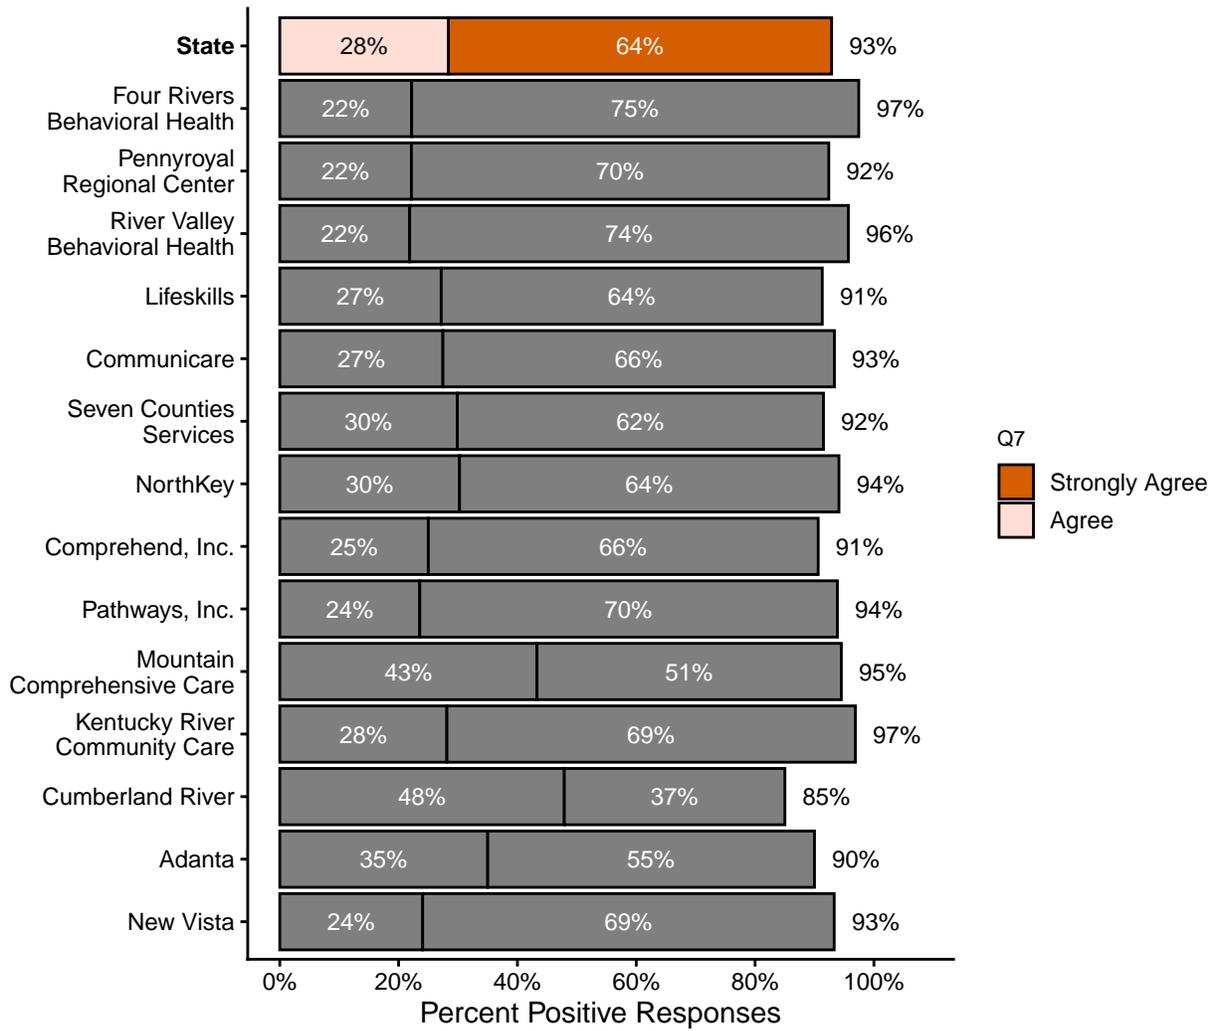

Services Were Available At Times That Were Good For Me

Statewide Totals

In 2025, 93% of respondents positively indicated services were available at times that were good for them; this is a 2 percentage point increase from 2024.

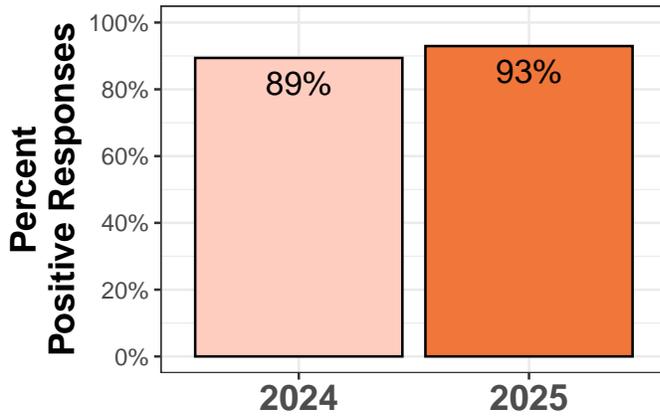

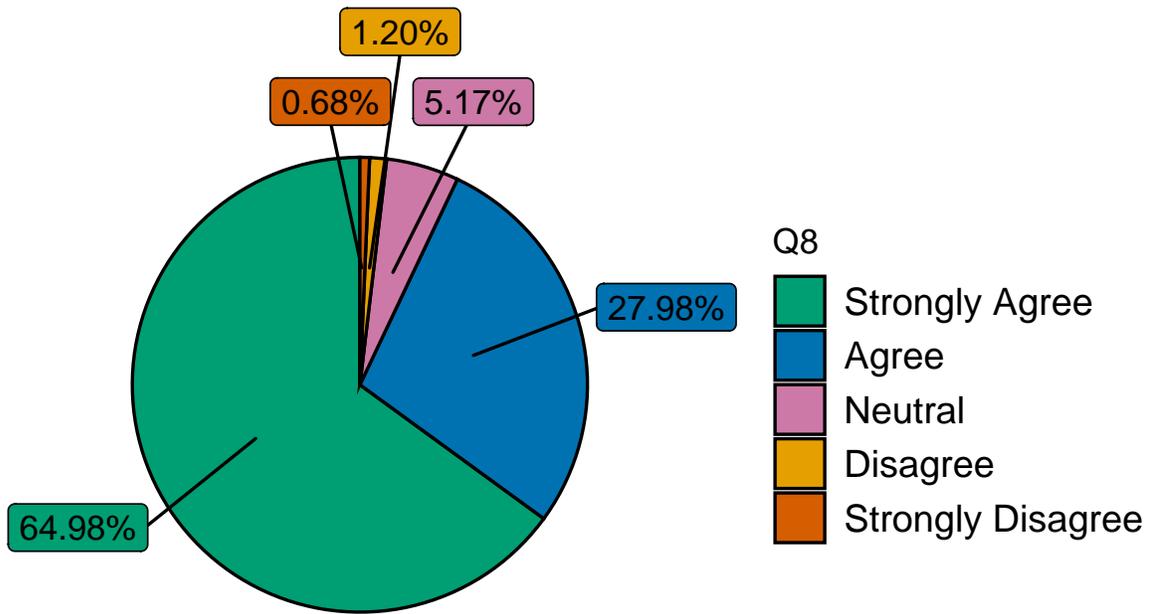

Regional Totals

Access To Services

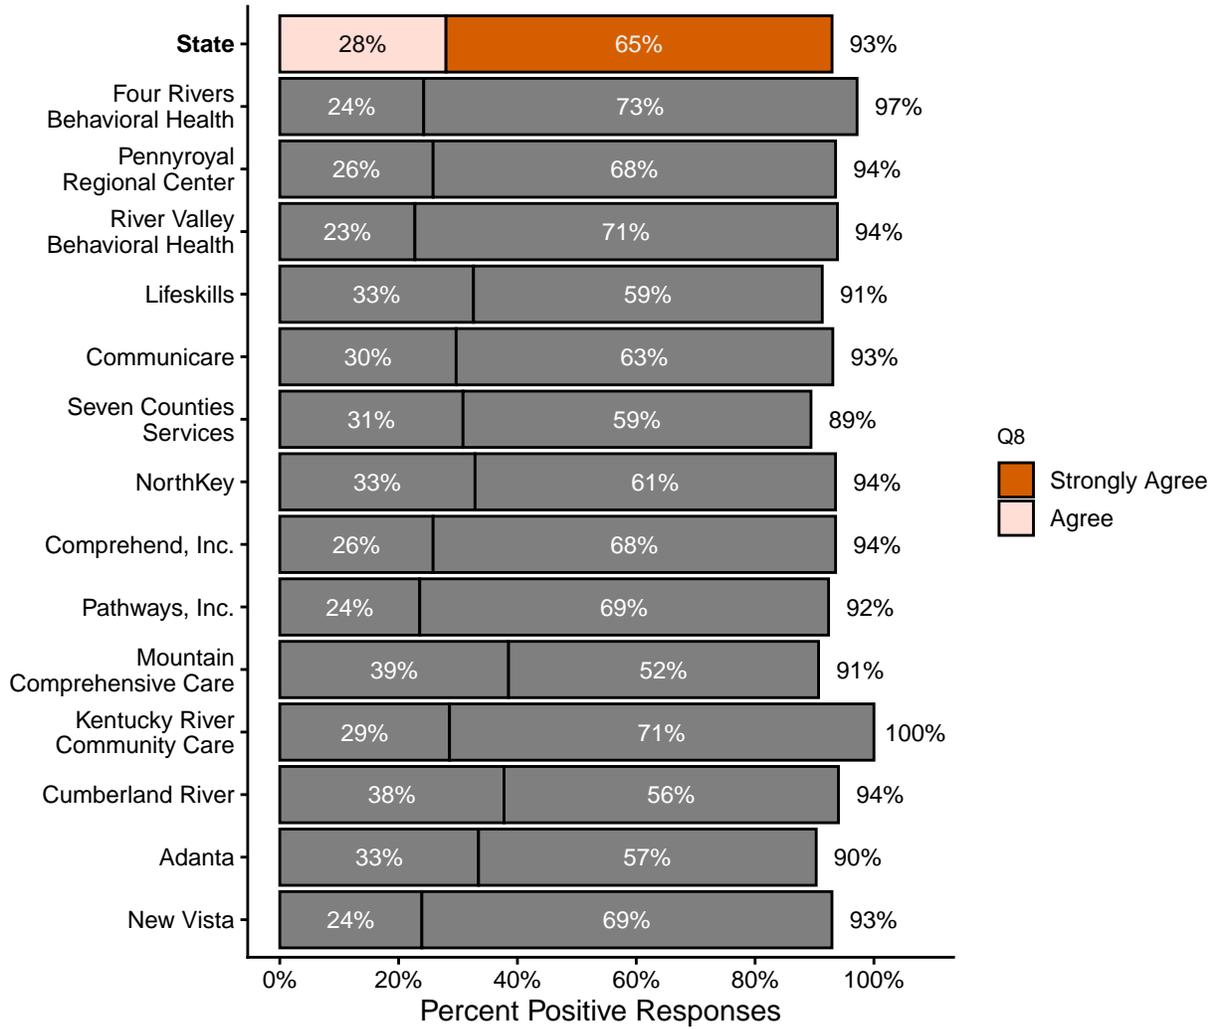

I Was Able To Get All The Services I Thought I Needed

Statewide Totals

In 2025, 93% of respondents positively indicated they were able to get all the services they felt necessary; this is a 4 percentage point increase from 2024.

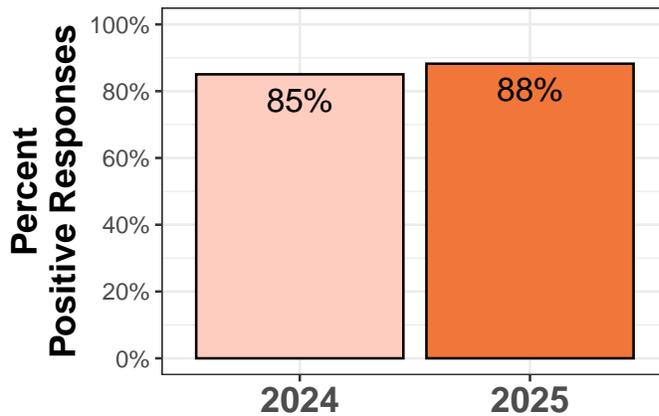

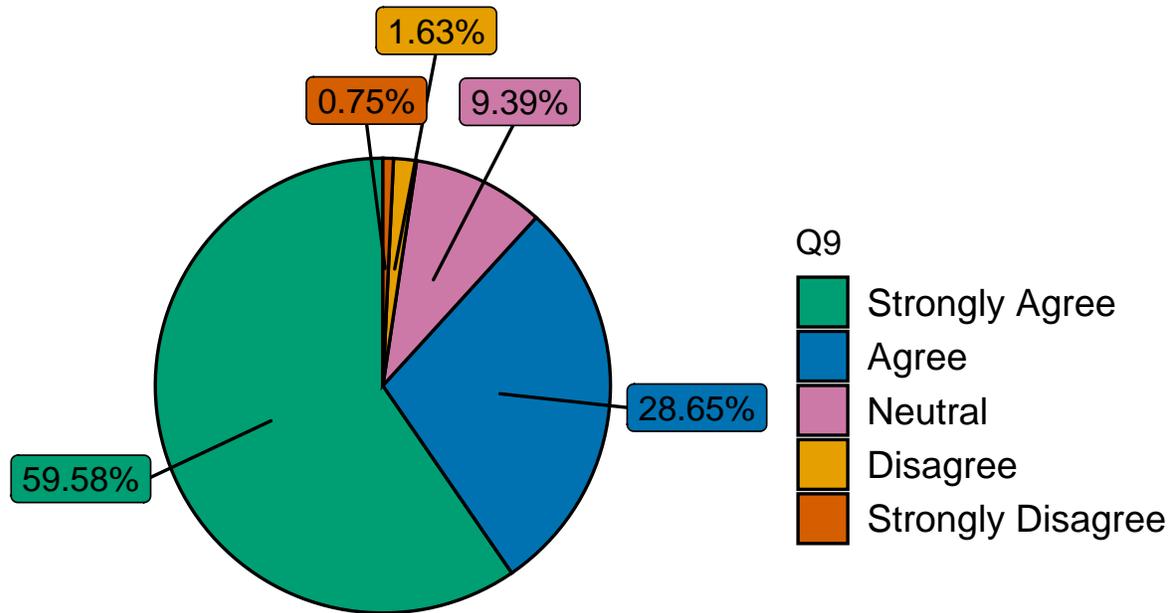

Regional Totals

Access To Services

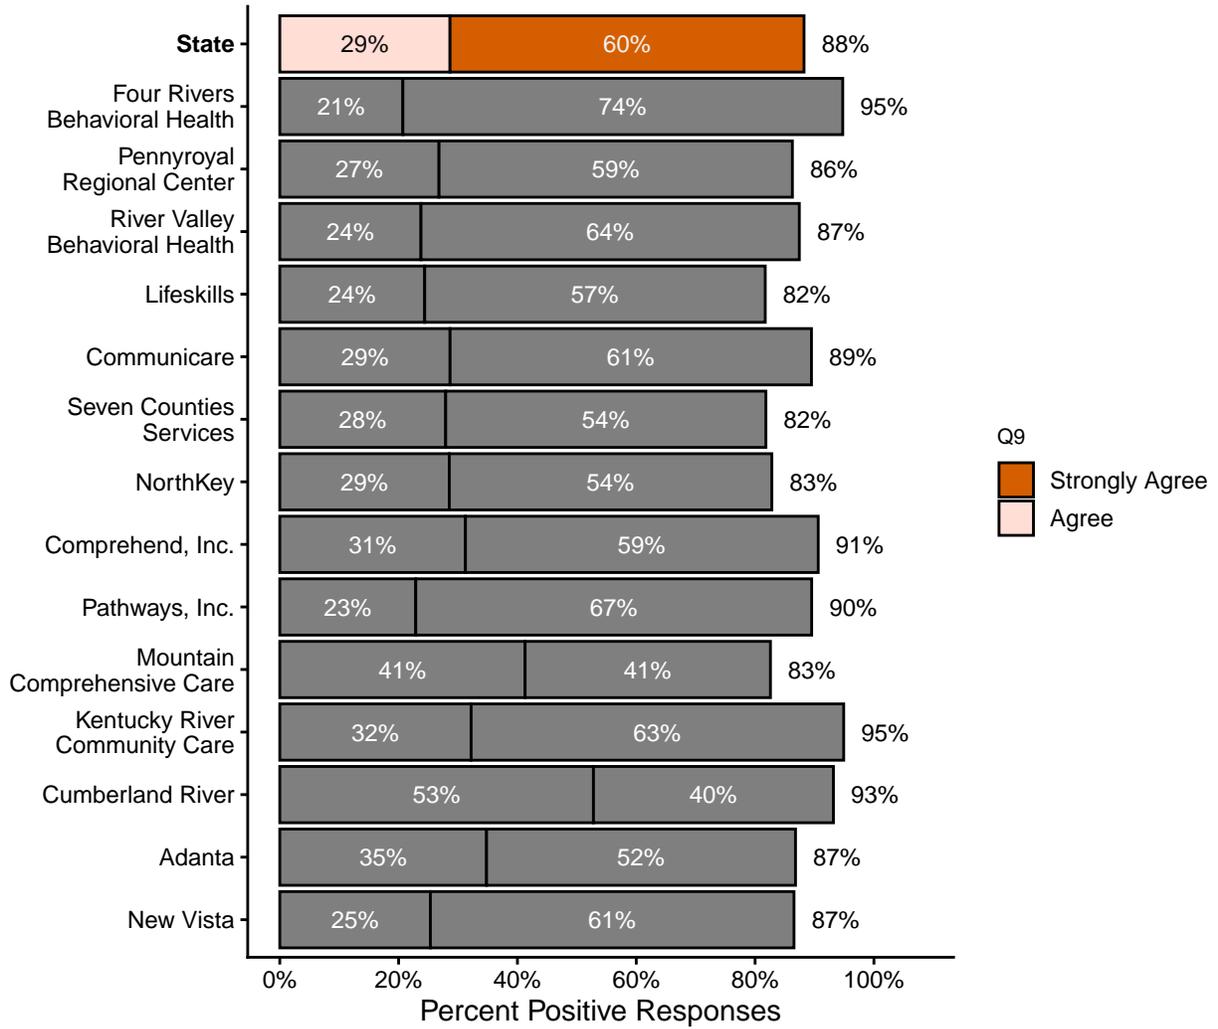

I Was Able To See A Psychiatrist
When I Wanted To

Statewide Totals

In 2025, 88% of respondents positively indicated they were able to see a psychiatrist when they wanted to; this is a 3 percentage point increase from 2024.

Regional Totals

Cultural Sensitivity

Overview

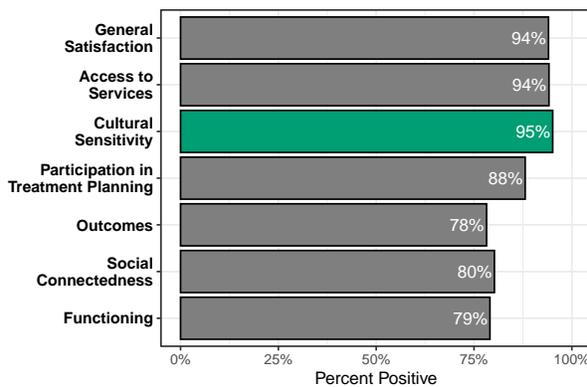

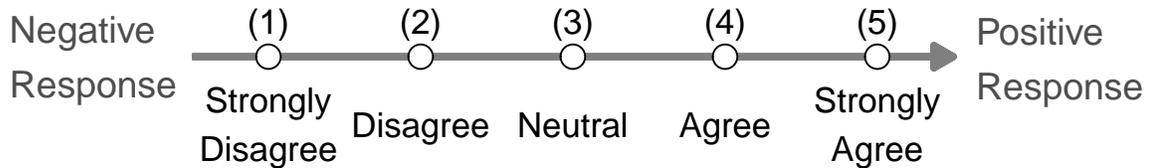

Statewide Totals

The primary concerns of the 'Cultural Sensitivity' domain are:

- Voluntary Participation in Services
- Promoting Recovery
- Maximizing Continuity of Care
- Cultural and Linguistic Access

By national standards a domain score of 3.5 or greater indicates that respondents, on average, positively perceived the services.

MHSIP Survey Scale

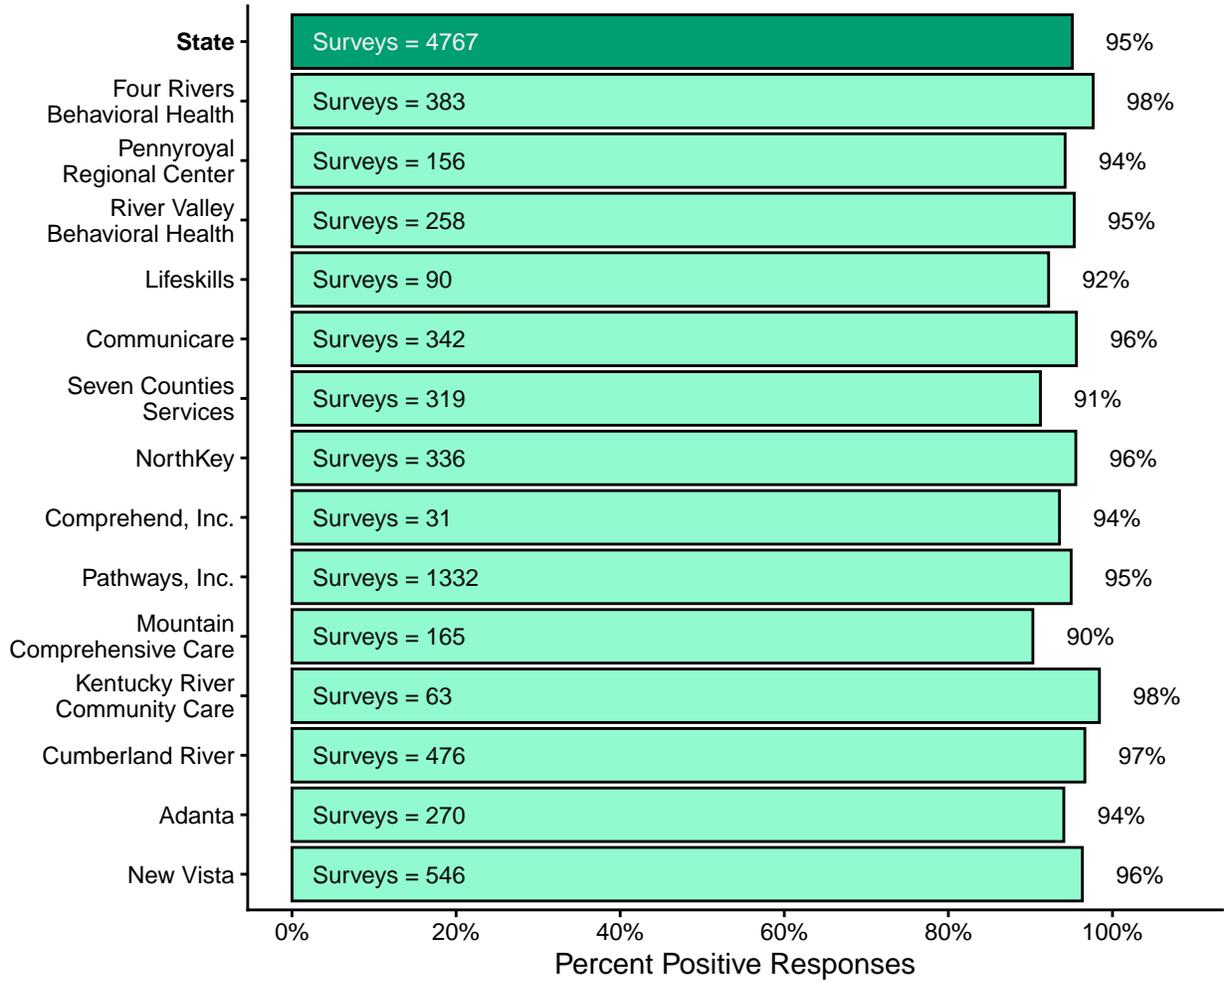

Domain	Score (1 to 5)
General Satisfaction	4.56
Access to Services	4.53
Cultural Sensitivity	4.54
Participation in Treatment Planning	4.51
Outcomes	4.17
Social Connectedness	4.24
Functioning	4.22

In 2025, 95% of respondents had a positive average rating for the Cultural Sensitivity domain. The average rating for all questions within the domain was 4.54 out of 5.

Regional Totals

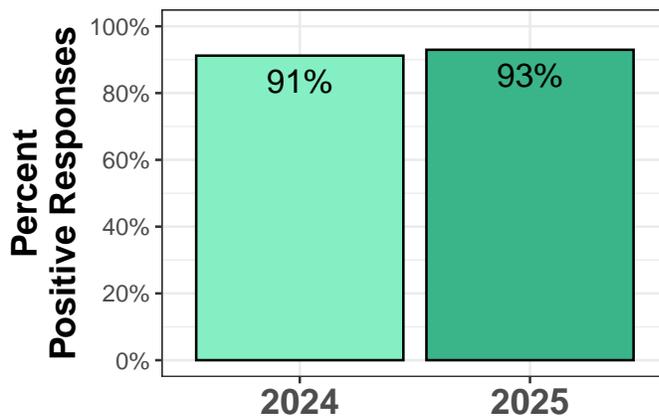

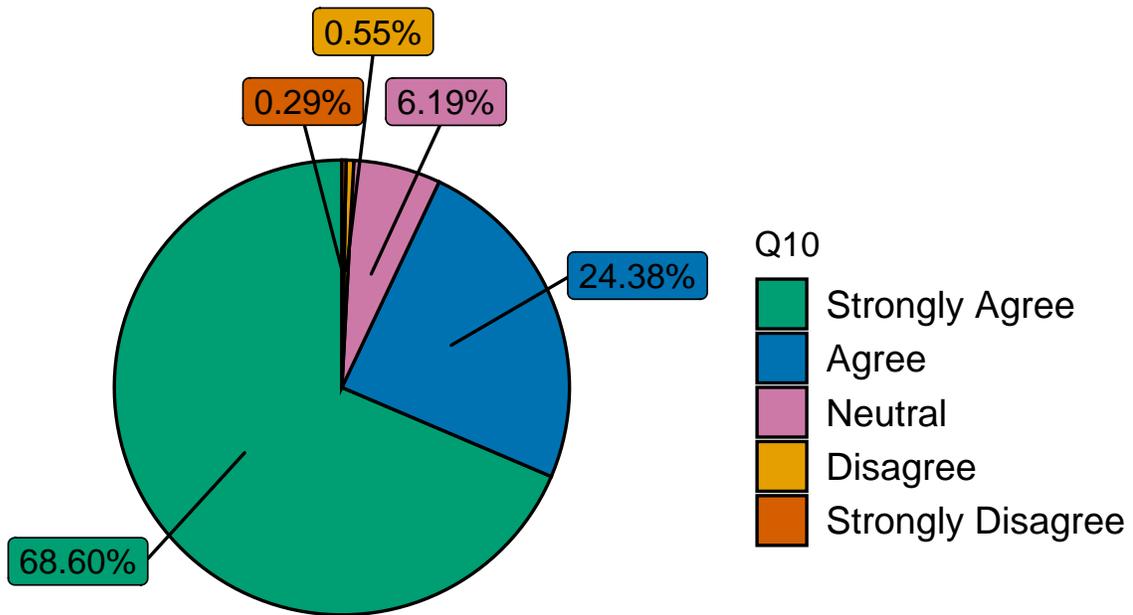

Cultural Sensitivity

Cultural Sensitivity

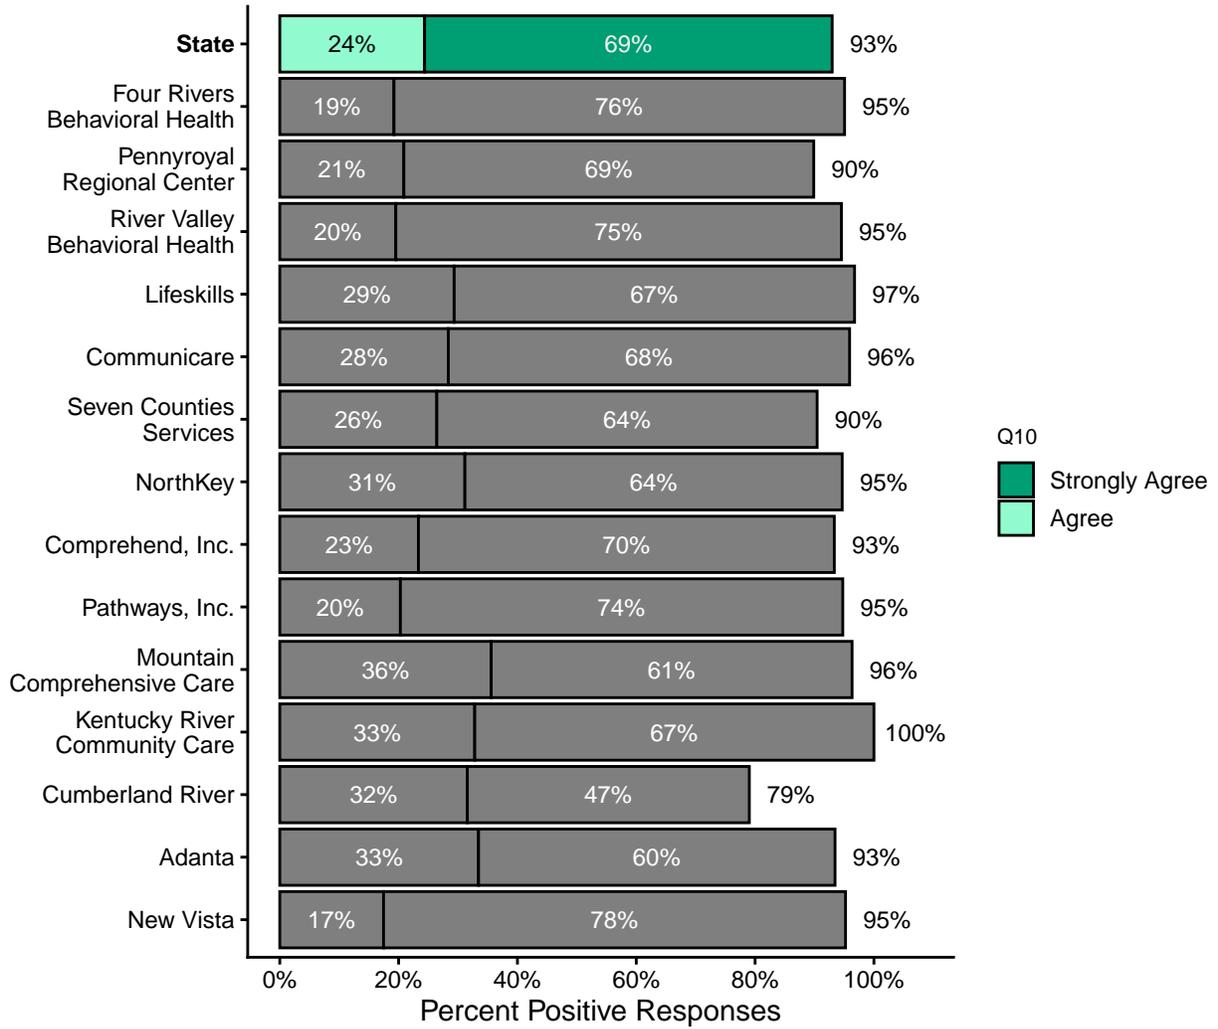

Staff Here Believe That I Can Grow, Change, And Recover

Statewide Totals

In 2025, 93% of respondents positively indicated that staff believed the respondent could grow, change, and recover; this is a 2 percentage point increase from 2024.

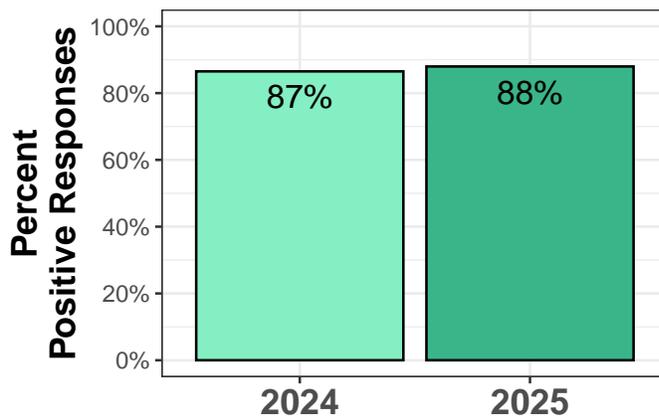

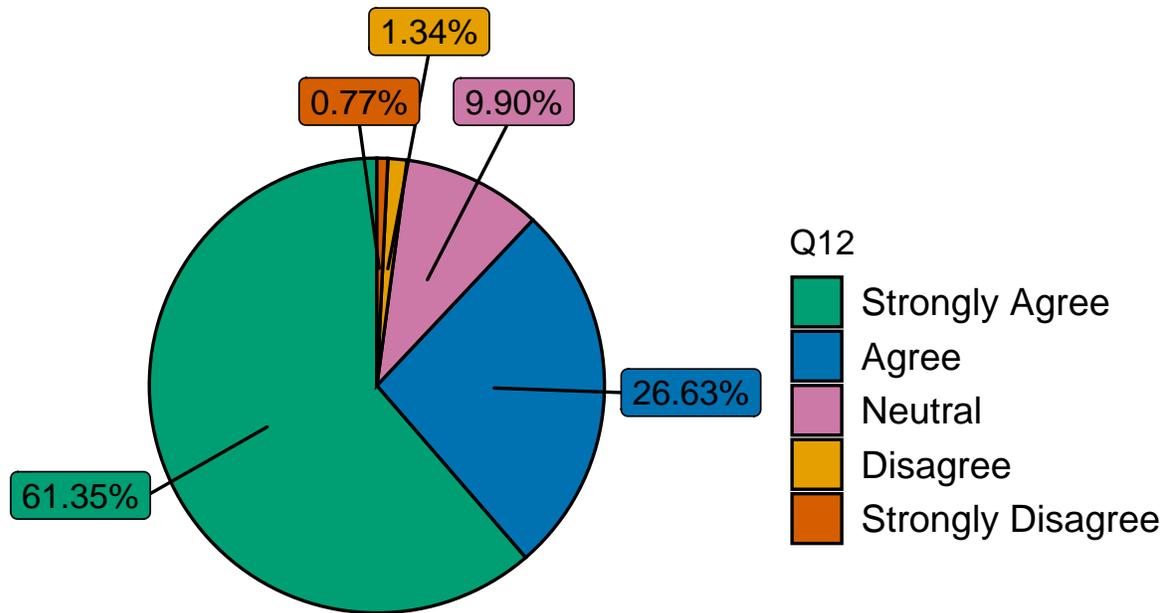

Regional Totals

Cultural Sensitivity

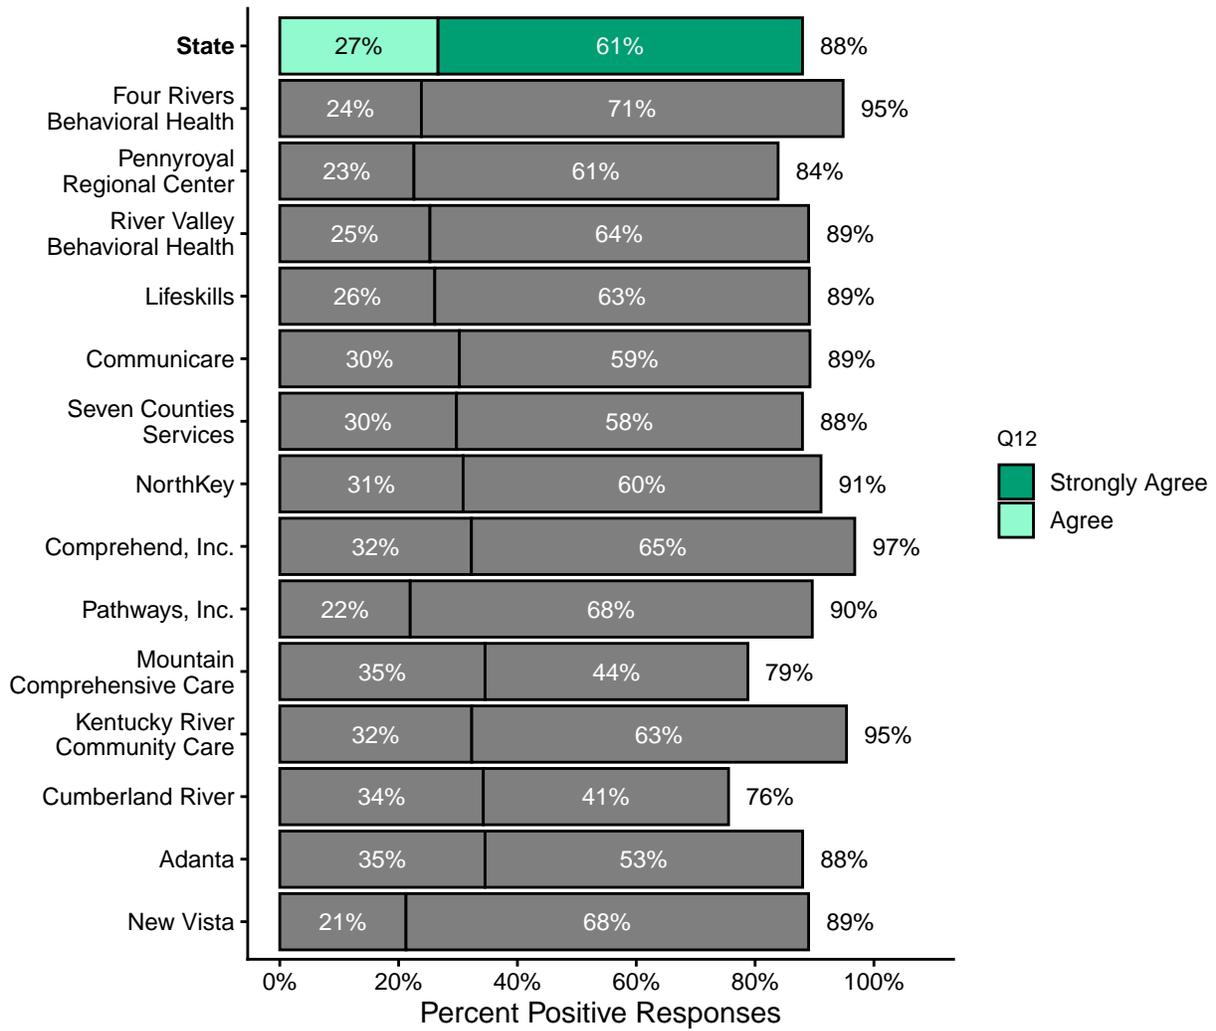

I Felt Free To Complain

Statewide Totals

In 2025, 88% of respondents positively indicated they felt free to complain; this is a 1 percentage point increase from 2024.

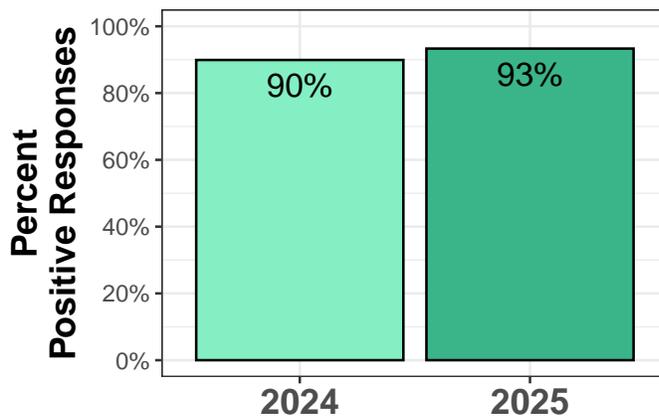

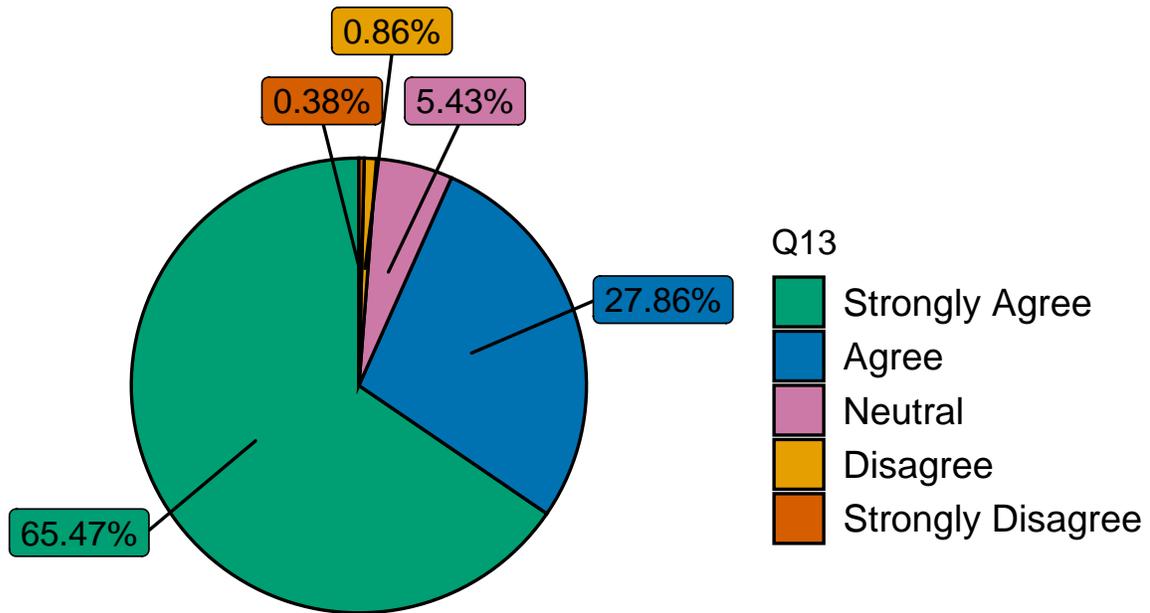

Regional Totals

Cultural Sensitivity

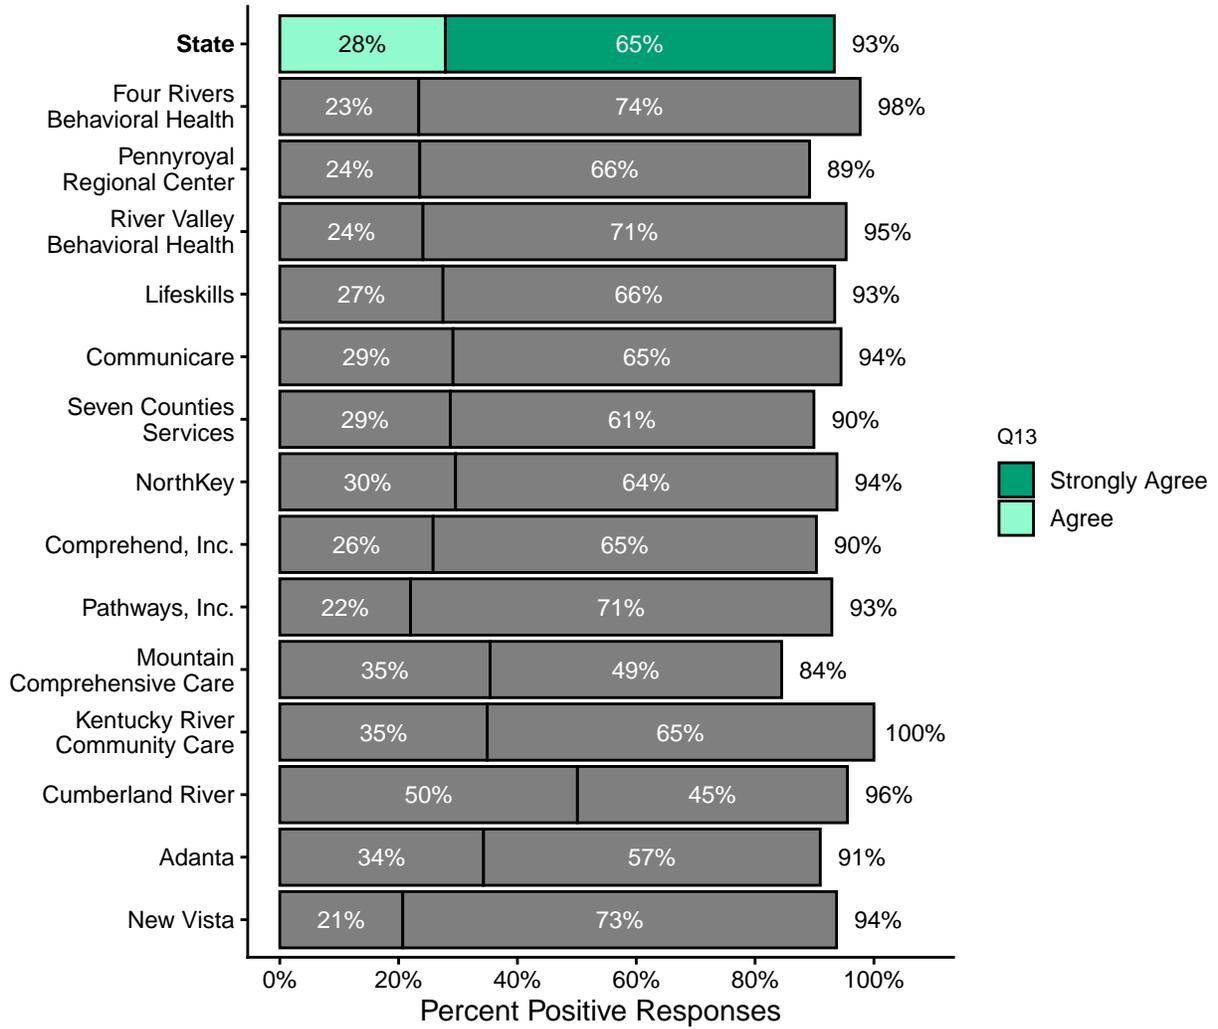

I Was Given Information About My Rights

Statewide Totals

In 2025, 93% of respondents positively indicated they were given information about their rights; this is a 3 percentage point increase from 2024.

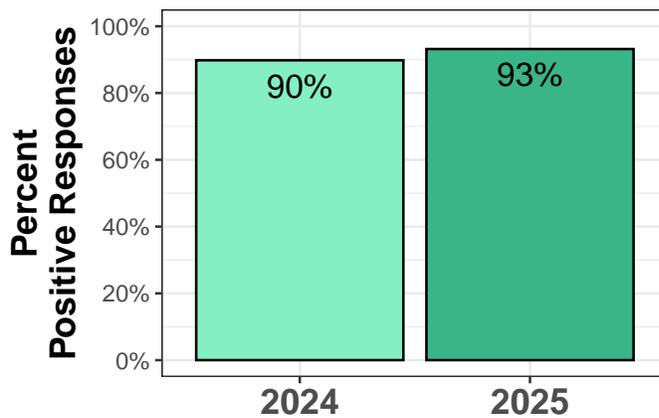

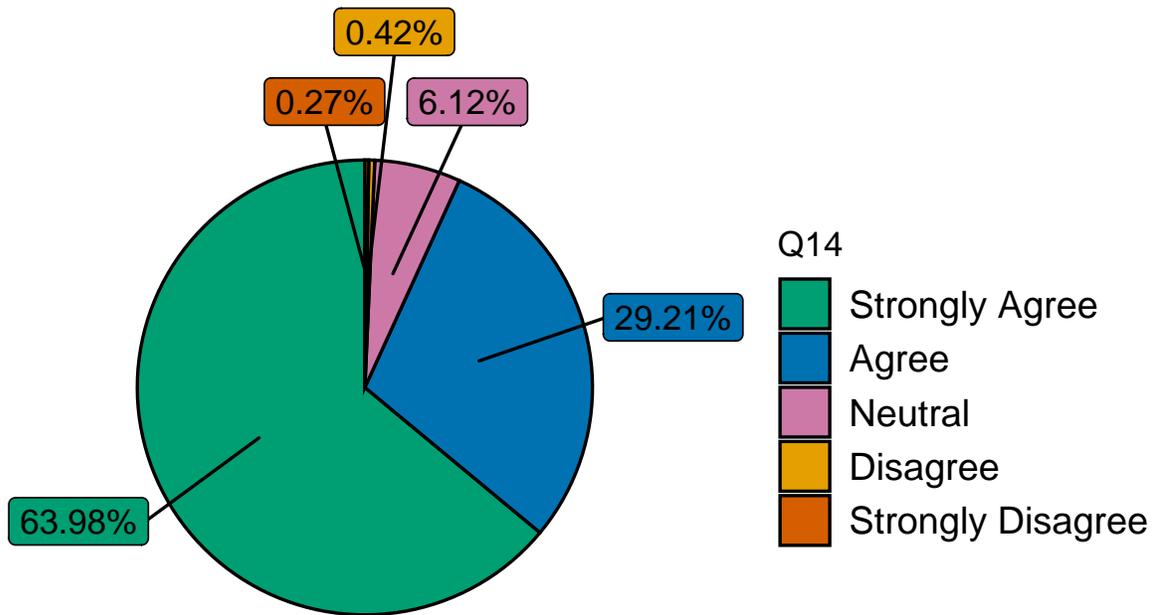

Regional Totals

Staff Respected My Wishes About
Who Is And Who Is Not
To Be Given Information About My Treatment

Statewide Totals

In 2025, 95% of respondents positively indicated the staff respected their wishes regarding others' access to their treatment information; this is a 3 percentage point increase from 2024.

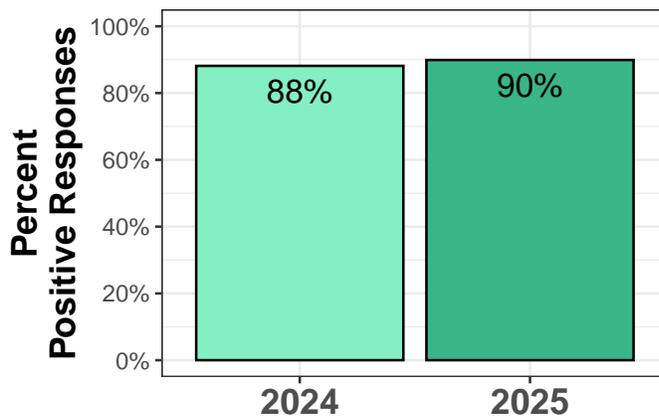

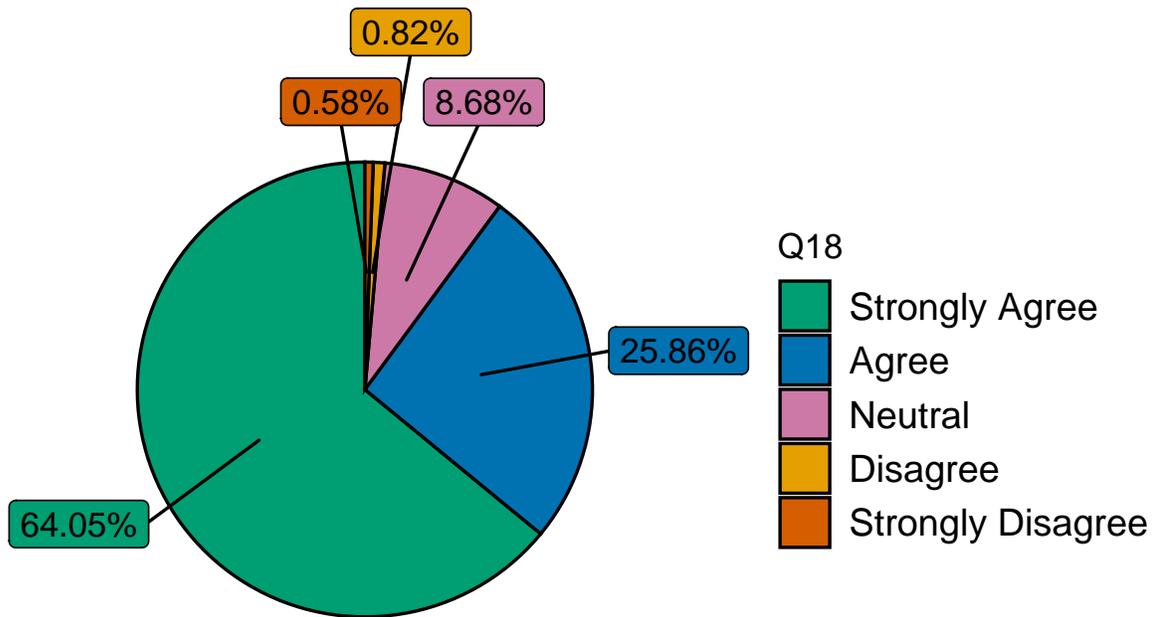

Regional Totals

Cultural Sensitivity

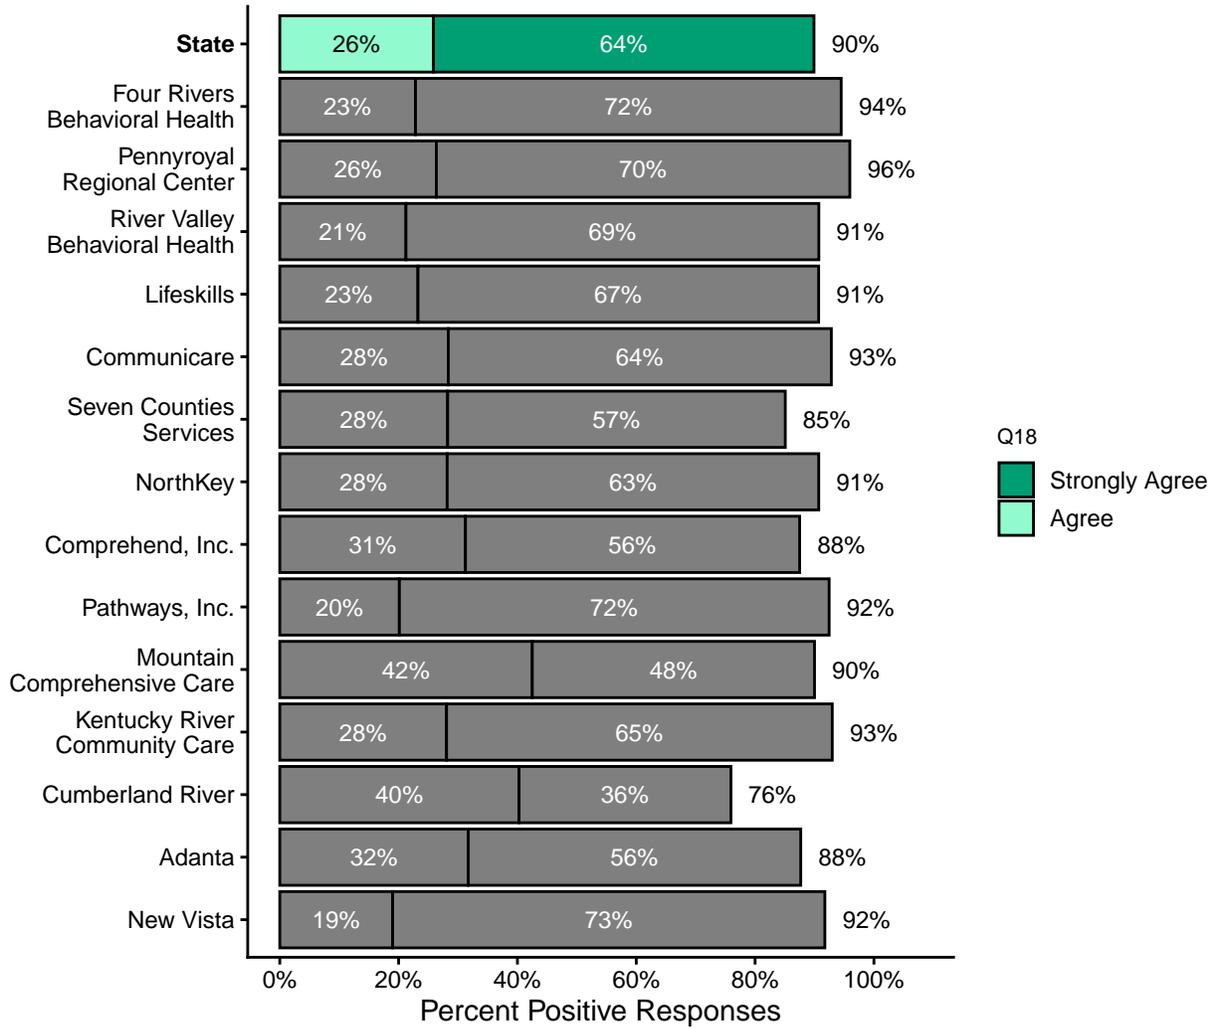

Staff Were Sensitive To My Cultural Background

Statewide Totals

In 2025, 90% of respondents positively indicated the staff were sensitive to their cultural background; this is a 2 percentage point increase from 2024.

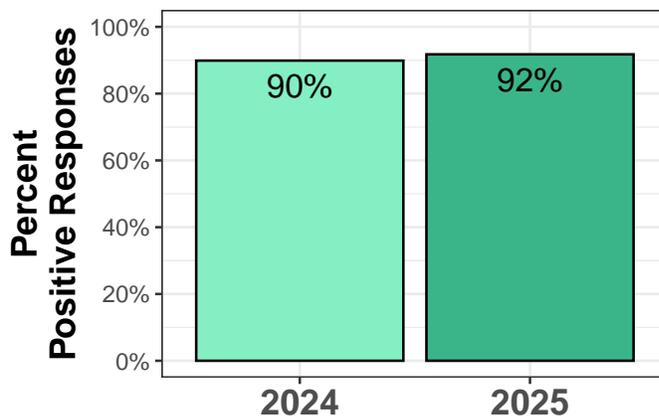

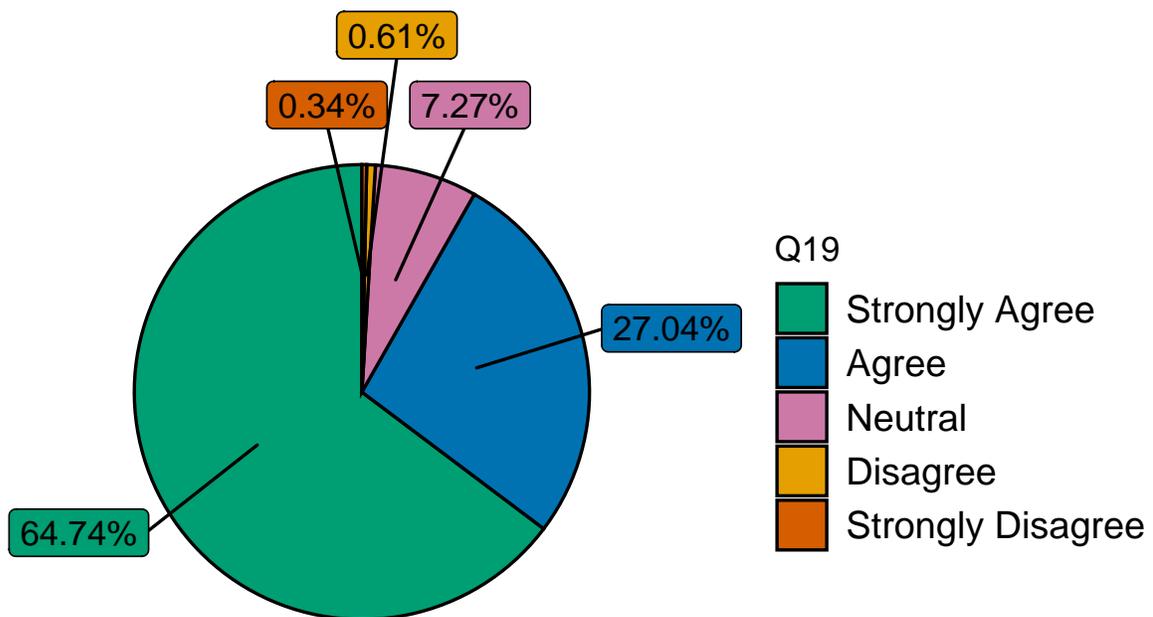

Regional Totals

Cultural Sensitivity

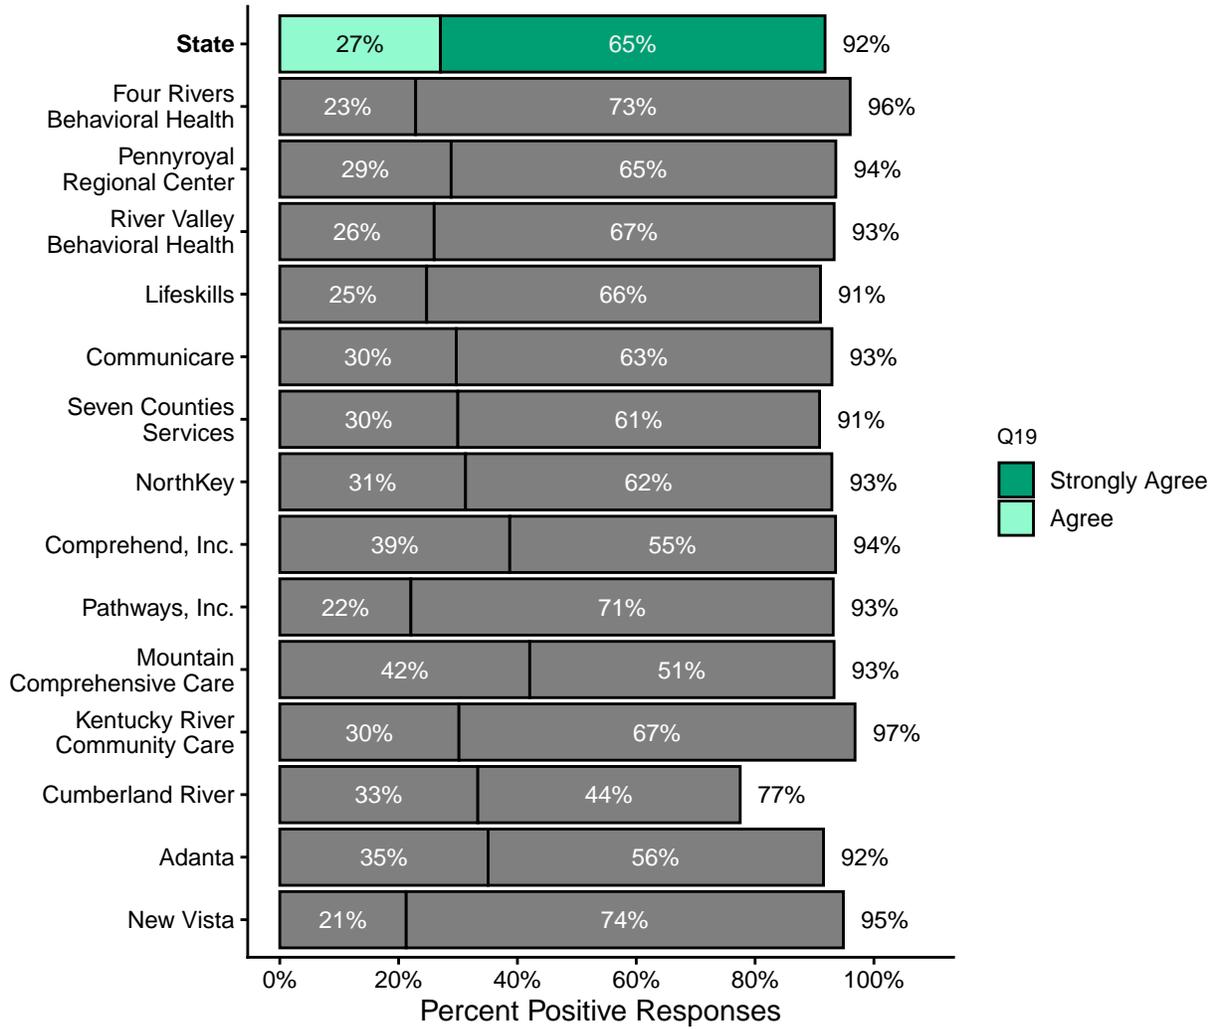

Staff Helped Me To Obtain The Information I Needed So That I Could Take Charge Of Managing My Illness

Statewide Totals

In 2025, 92% of respondents positively indicated that staff helped them take charge of managing their illness; this is a 2 percentage point increase from 2024.

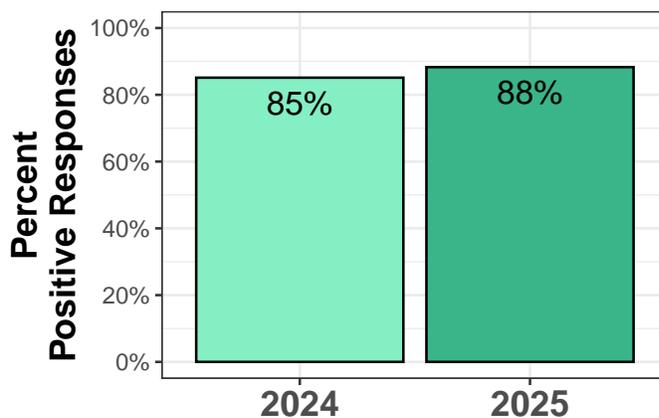

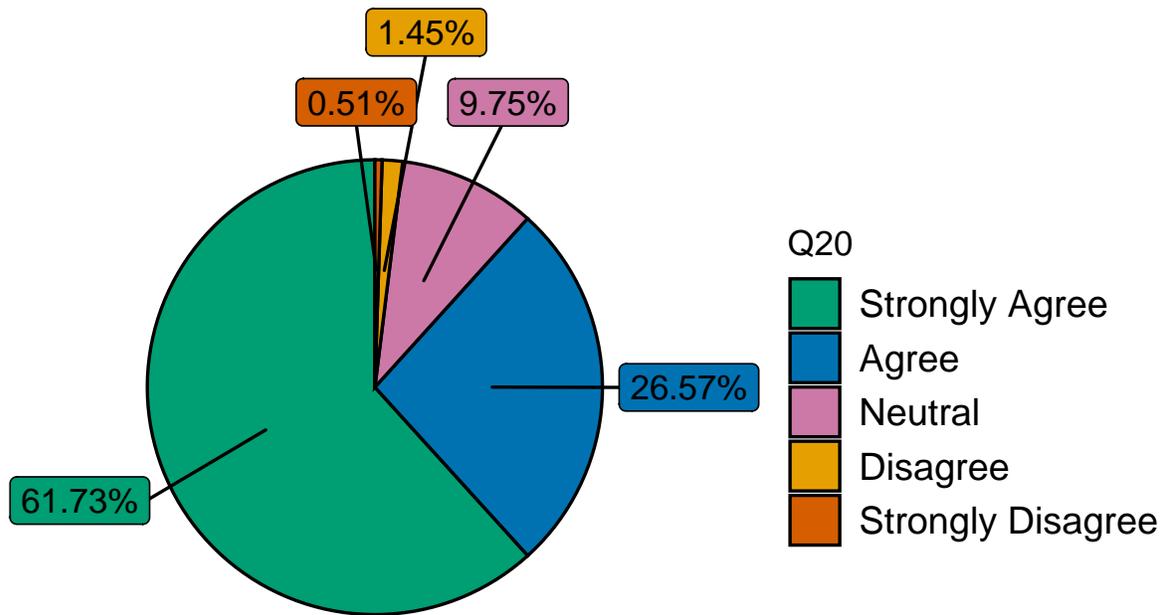

Regional Totals

Cultural Sensitivity

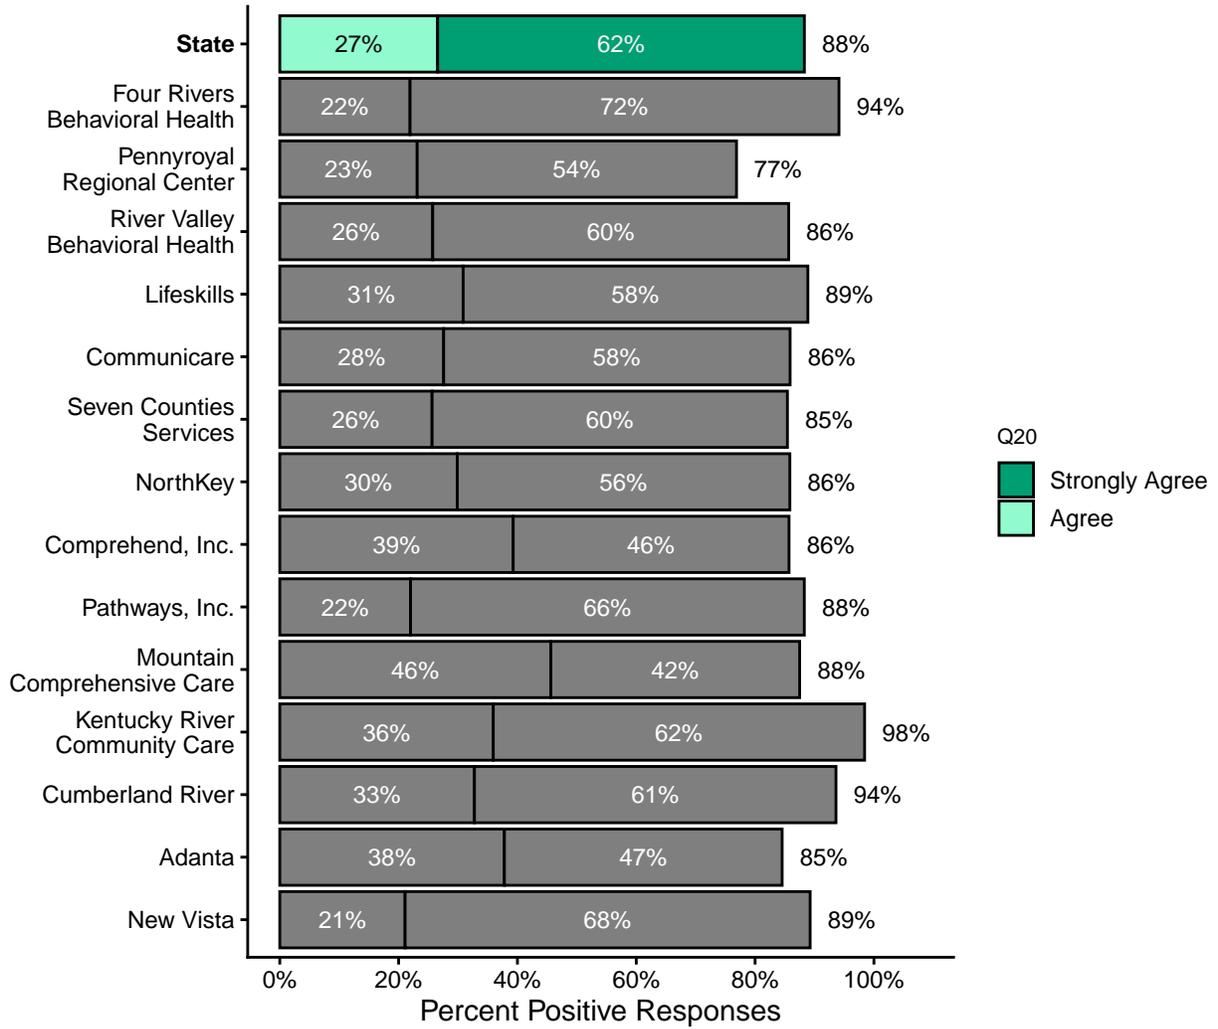

I Was Encouraged To Use Consumer-Run Programs

Statewide Totals

In 2025, 88% of respondents positively indicated staff encouraged them to use consumer-run programs; this is a 3 percentage point increase from 2024.

Regional Totals

Participation In Treatment Planning

Overview

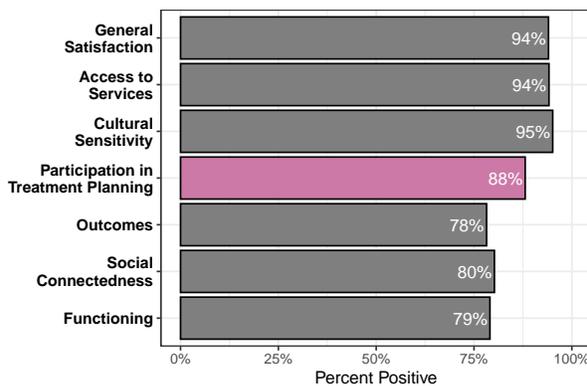

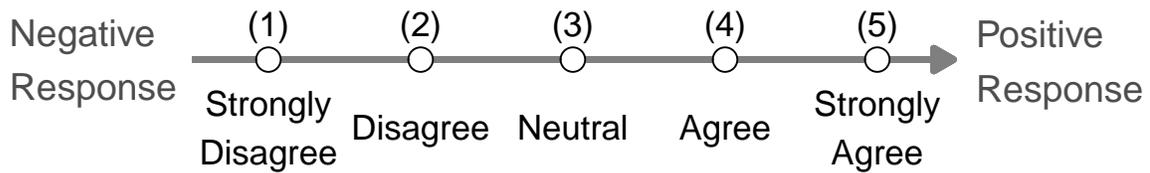

Statewide Totals

The primary concerns of the ‘Participation In Treatment Planning’ domain are:

- Meaningful Participation In Planning My Service Array

By national standards a domain score of 3.5 or greater indicates that respondents, on average, positively perceived the services.

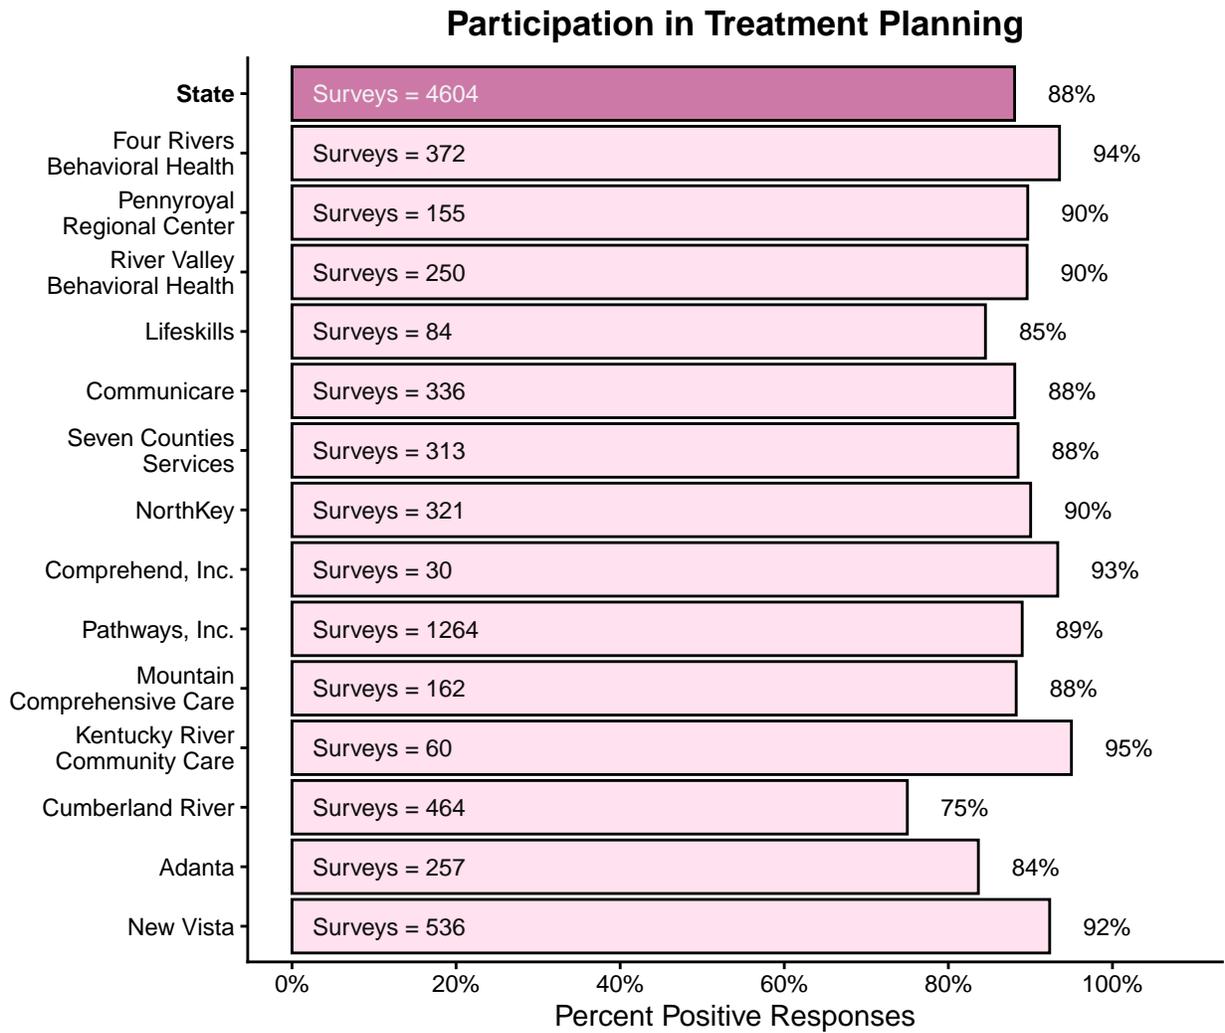

MHSIP Survey Scale

Domain	Score (1 to 5)
General Satisfaction	4.56
Access to Services	4.53
Cultural Sensitivity	4.54
Participation in Treatment Planning	4.51
Outcomes	4.17
Social Connectedness	4.24
Functioning	4.22

In 2025, 88% of respondents had a positive average rating for the Participation In Treatment Planning domain. The average rating for all questions within the domain was 4.51 out of 5.

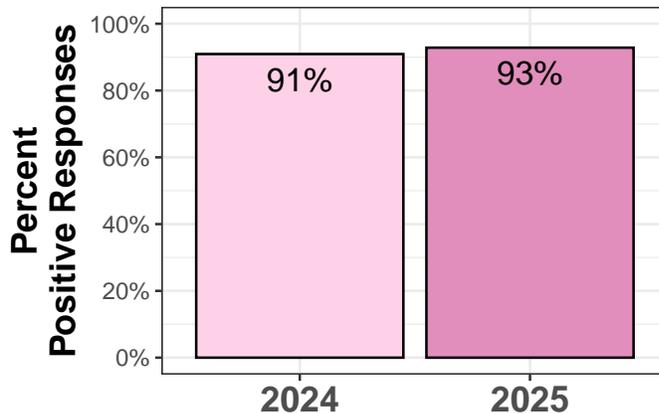

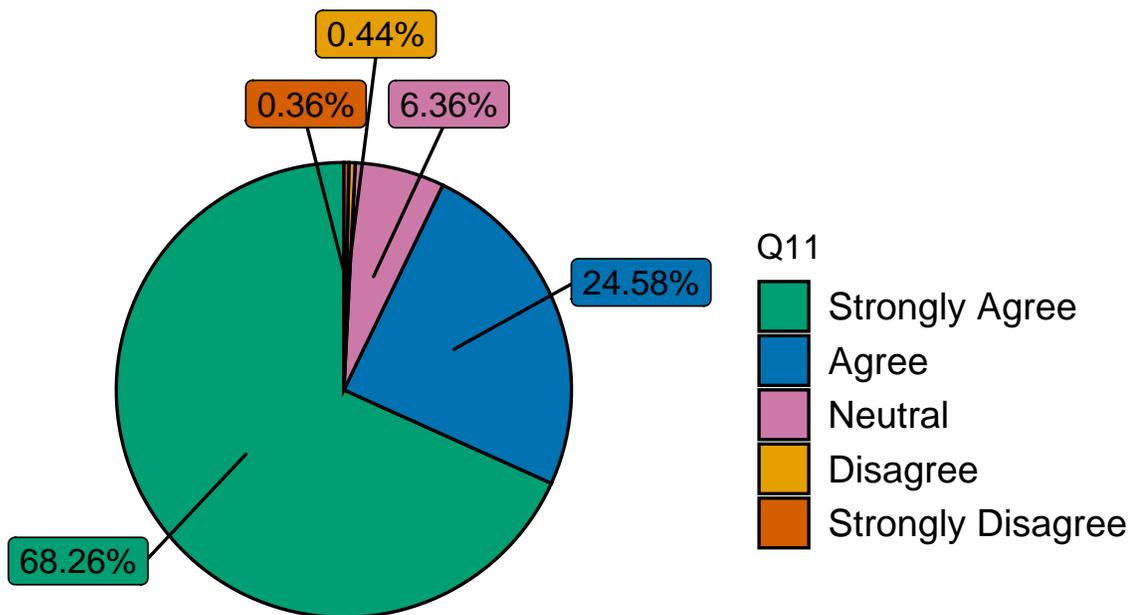

Regional Totals

Participation In Treatment Planning

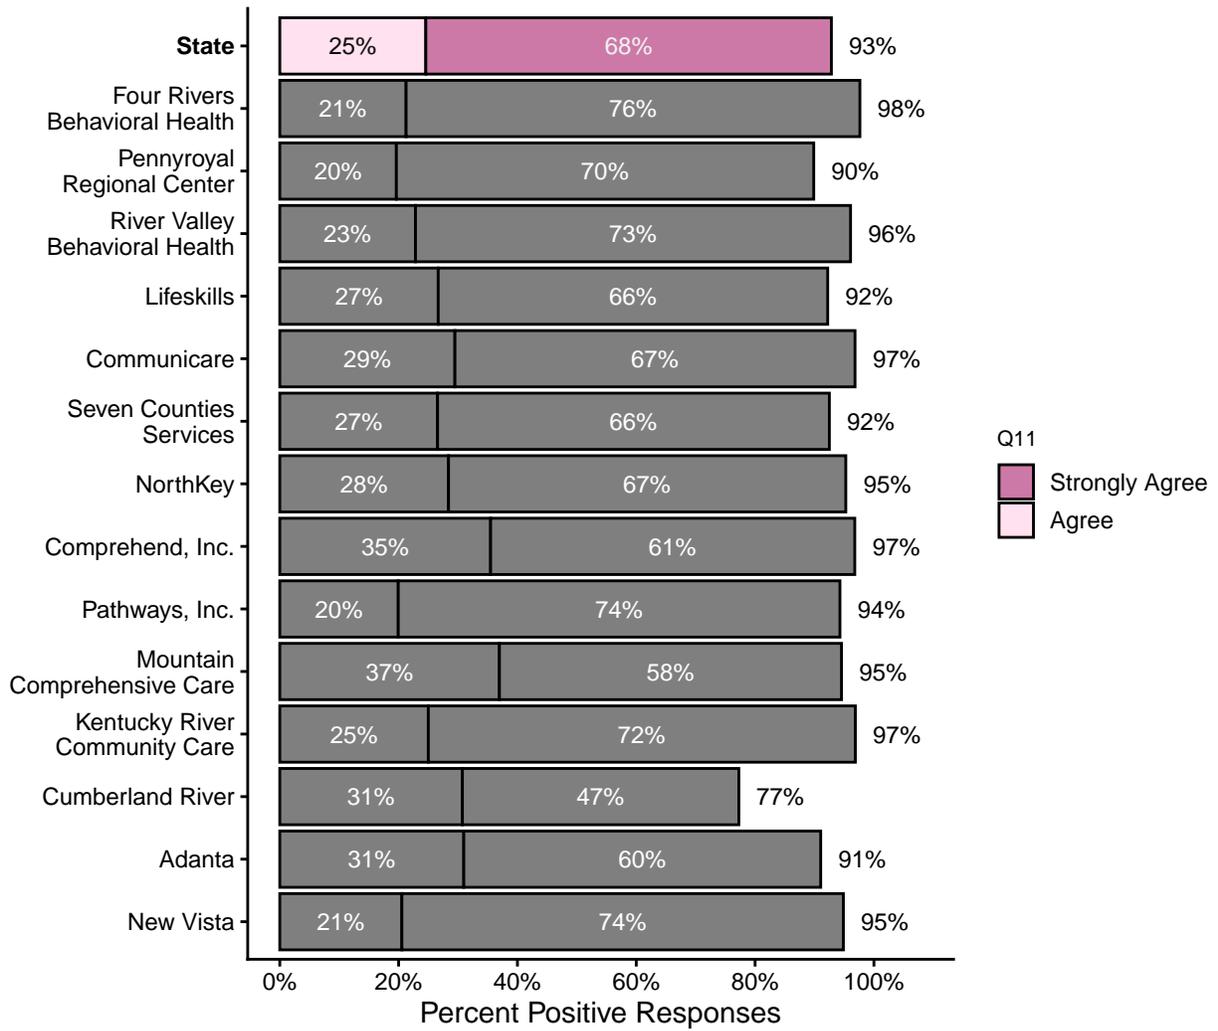

I Felt Comfortable Asking Questions About My Treatment And Medication

Statewide Totals

In 2025, 93% of respondents positively indicated they felt comfortable asking questions about their treatment and medications; this is a 2 percentage point increase from 2024.

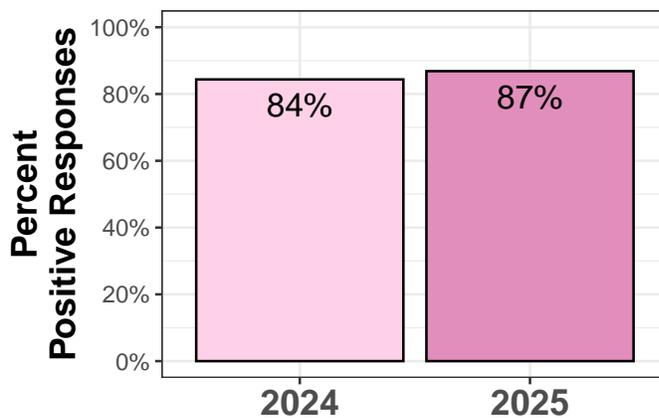

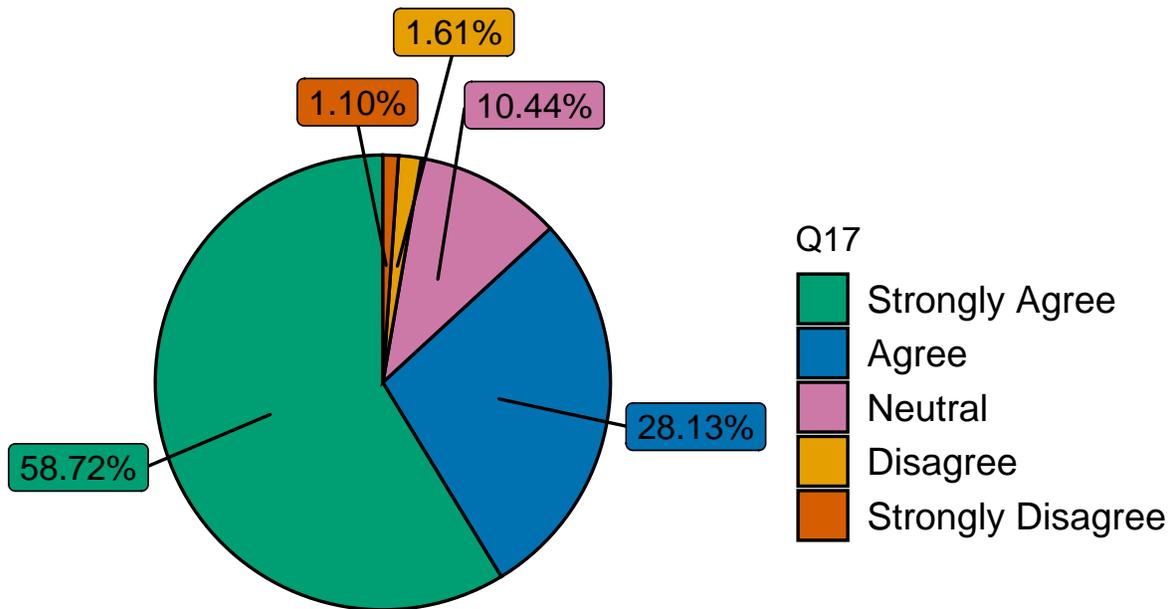

Regional Totals

Participation In Treatment Planning

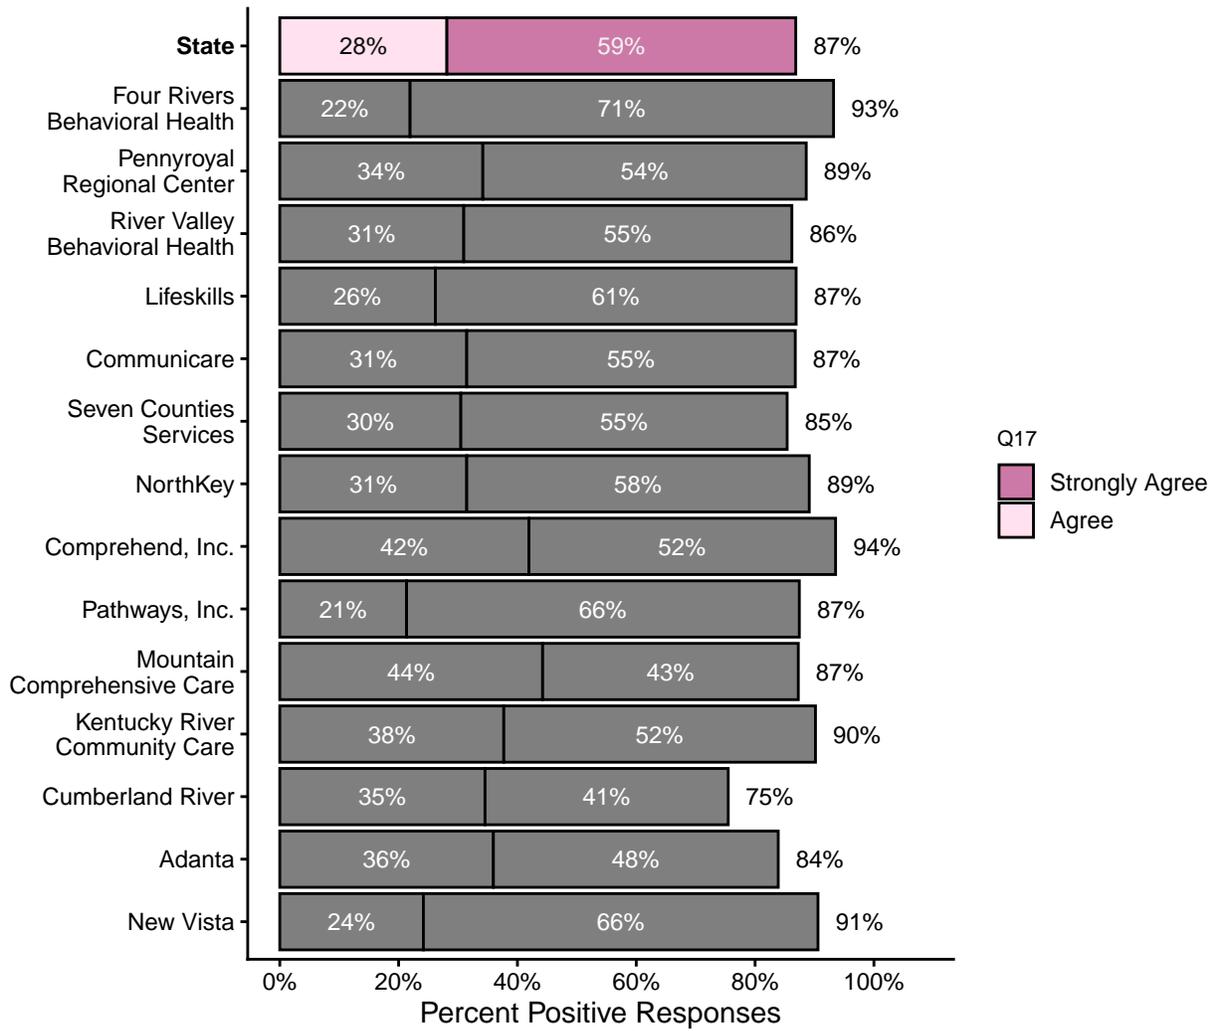

I, Not Staff, Decided My Treatment Goals

Statewide Totals

In 2025, 87% of respondents positively indicated they felt in control of choosing their treatment goals; this is a 3 percentage point increase from 2024.

Regional Totals

Outcomes

Overview

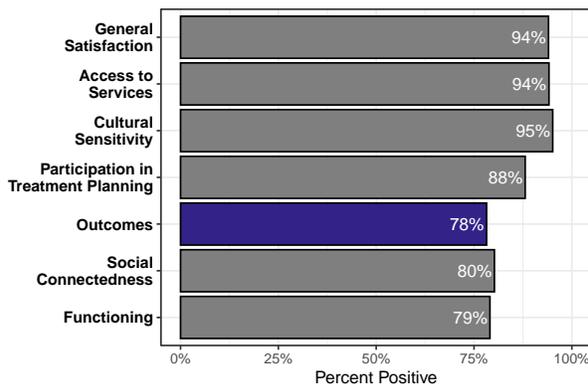

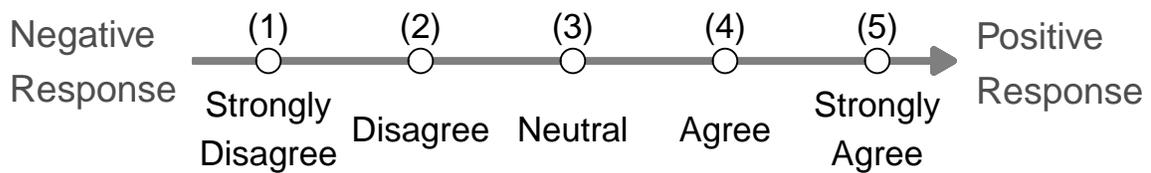

Statewide Totals

The primary concerns of the ‘Outcomes’ domain are:

- Minimal Negative Outcomes From Treatment
- Reduced Psychological Distress
- Increased Sense Of Personhood
- Increase In Productive Activity
- Increase In Independent Functioning
- Capacity for Independent Community Living
- Positive Changes In Areas For Which Treatment Is Sought

By national standards a domain score of 3.5 or greater indicates that respondents, on average, positively perceived the services.

MHSIP Survey Scale

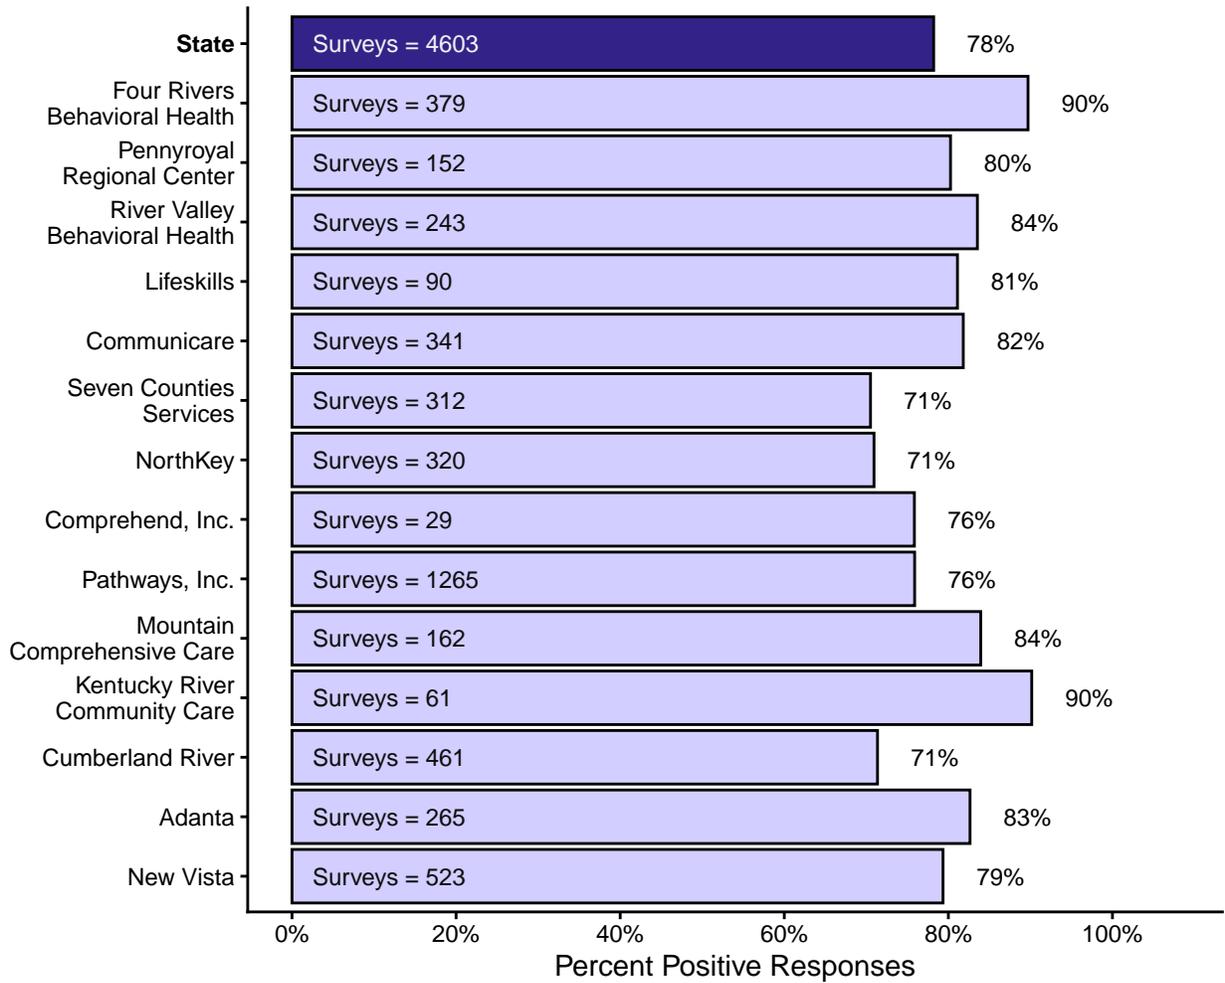

Domain	Score (1 to 5)
General Satisfaction	4.56
Access to Services	4.53
